Health Monitoring Water Purifying

01 Important

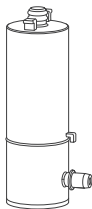

- Thank you for purchasing CATLINK AI Water Fountain - PURE2. CATLINK will, as always, put pet safety, health and service experience first.
- Please read this user manual carefully before use. Once the product is used, it means that the following safety precautions have been carefully read and accepted.
- CATLINK is not responsible for any accident or loss caused by illegal operation and assumes no legal responsibility.
- The right to interpret and modify this statement belongs to CATLINK.

02 Important Safety Instructions

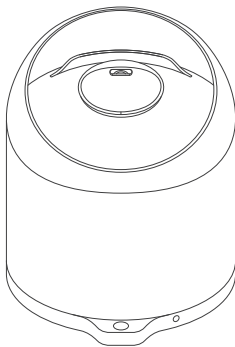

Failure to comply with the following terms may result in product failure or other accidental damage.

- ① Please assemble and use the product in strict accordance with the instructions.
- ② Please use this product indoors, avoiding high temperature, high humidity and direct sunlight.
- ③ This device uses a low-voltage 5V power supply. Pets will not get electrocuted by biting wires, but it will cause leakage. Please guide your pet to use this product correctly.
- ④ Please use the original adapter, otherwise it will damage the device or cause safety hazards.
- ⑤ Please place the device on a dry, stable and level floor. Keep it horizontal and do not overturn it, otherwise the device will not work properly.
- ⑥ The base of this product should not be immersed in or soaked in water.
- ⑦ If children use this device, be sure to use it under the guidance of an adult.
- ⑧ Please carry out maintenance under the guidance of professionals to avoid accidental injuries.
- ⑨ In order to provide a better experience, we will regularly carry out product upgrades. The actual equipment or related functions may be different from this manual.
- ⑩ Feel free to contact us if you have any problems.

16 FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
