PUSH-TO-TALK BUTTON

1 Download Tango Tango

Scan the code below to download the Tango Tango app from the Apple App Store or Google Play Store, and view a short setup video.

Alternatively, you can visit **tangotango.net/ptt-button-setup** for app download links and videos.

Once installed, open the app and login using the phone number registered with your account.

2 Scan for PTT Button

Your button has a unique 6 character code printed on the back.

This code is used to identify your Axiom during connection.

ABCDEF

First, make sure your phone's Bluetooth is turned on.

Next, open the Tango Tango app and from the main screen:
- Tap ⚙ **Settings**
- Tap 🔲 **PTT Button**
- Tap **+ Add PTT Button**

Your phone will now scan for nearby push-to-talk buttons.

3 Connect PTT Button

While scanning with the Tango Tango app, press the PTT button to turn on your button.
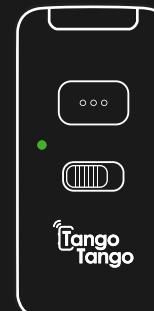

A green light will begin to blink while waiting to connect to your phone.

Discovered buttons will appear on your phone screen. Tap the 6 character code matching the letters on the back of your button device to connect to it.

Your button is now connected and will appear under **My Devices**.

4 Attach to Phone

Install horizontally by lining up PTT button with the edge of your phone.

Or install vertically below the camera.
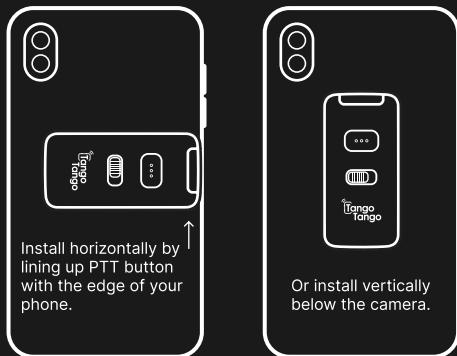

Clean the surface of your phone or case (rubbing alcohol works well), then peel the liner from the adhesive strip and stick it on the back of your phone.

The adhesive sticks to most phones and cases.

5 Ready for Action

PTT Button is ready to use with the Tango Tango app.
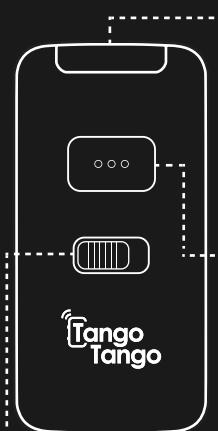

Push To Talk
Press and hold to send a message on the currently selected channel.

Replay / Emergency Call
Press once to replay the last message. Hold for 1.5s to initiate an emergency call.

Do Not Disturb
Toggle all audio from the Tango Tango app on or off.

Troubleshooting Tips

Why isn't my PTT button working?

Your button goes to sleep if bluetooth is disconnected or turned off on your phone. Make sure your phone's bluetooth is turned on and the Tango Tango app is running. Press the PTT button to wakeup and reconnect to your phone. Verify your button is connected in the app settings under "PTT Button".

How long does the battery last? Can I replace the battery?

Battery typically lasts a year with average use. The battery can be replaced by unscrewing the back panel and inserting a new CR2032 coin cell battery.
