This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications of this product is not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CLOSING THE LIGHT DISC

1. Do not remove the seal rings. Make sure the seal rings are in the correct position.

2. Tighten the 2 halves by holding the base and turning the top clockwise until it is tight.

3. Please keep the remote control away from water, because it is not waterproof, water will make it stop working.

4. Avoid looking directly at the bulb when starting.

16"

BATTERY INSTALLATION:

1. Carefully remove the remote from the packaging.
2. Remove the slide plate located on the back of the remote control.
3. Insert 1x CR2025 battery by aligning the appropriate (+/-) markings accordingly. (Battery included)
4. Replace the slide plate on the back of the remote control.

CAUTION:

1. Do not operate this product while it is still in the packaging.
2. Never mix old and new batteries (OR different types of batteries).
3. Do not mix alkaline, standard (carbon-zinc), or rechargeable (Ni-MH, Ni-CD, etc.) batteries or equivalent.
4. Battery is to be inserted with the correct polarity.
5. Remote with 1x CR2025 battery.
6. Exhausted battery is to be removed from the battery holder.
7. The supply terminals are not to be short circuited.
8. Do not throw battery into fire.
9. Battery should never be left in the product when not in use for long periods of time.
10. Never allow any plastic part to come in contact with a source of heat or flame.
11. This is not a toy. Keep out of the hands of small children.
12. Risk of injury is associated with the ingestion of battery.
13. Keep all new and used batteries out of the reach of children.
14. Seek immediate medical attention if battery is ingested.

DISPOSAL AND RECYCLING:

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your local authority or retailer for recycling advice. This applies to the battery also.

Battery

1. Use 3 x AA batteries. We recommend using only alkaline batteries.
2. When not in use, remove the batteries from both the Disc Light and remote control. This will help prevent any damage to both.

Remote Control

1. Before use, please remove the plastic protector from the bottom of the remote control.
 2. The maximum remote range of the RF remote control is 100ft/30m.
- When not in use, press the "OFF" button to power off.
