4. Name and content of harmful substances in the product

Component	The Hazardous Substances or Elementary Name					
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE
PCB	✖	○	○	○	○	○
Plastic	○	○	○	○	○	○
Metal parts	✖	○	○	○	○	○
Battery	○	○	○	○	○	○
Charging line	○	○	○	○	○	○

This table is prepared in accordance with the provisions of SJ/T11364
○ : Indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limit requirements specified in GB/T26572
✖: Indicates that the content of the hazardous substance in at least one homogeneous material of the component exceeds the limit requirements specified in GB/T26572.

The "environmental protection period" of this product is 10 years, as indicated in the image on the right. The environmentally friendly lifespan of replaceable components such as batteries may differ from that of the product. The 'environmentally friendly use period' is only valid when using this product under normal conditions as described in this user manual

Please read this user manual carefully before using the product and keep it properly.

5. Product Information

Product model: HRM 01
CMIIT ID: XXXXXXXXXXXX
Product size:49.5*33*11.6mm
Product weight: 19g
Wireless connection: BLE, ANT+
Battery capacity: 170mAh
Shell material: Engineering plastic

Device requirements: Android 6.0/iOS 11.0 and above systems

Dongguan Mentech Optical & Magnetic Co., Ltd.

Building 1, No. 157, Shipai Section, Dongyuan Avenue, Shipai Town, Dongguan City,
Guangdong Province

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
