

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the back of a black EUT housing and its internal components. The housing is placed on a blue surface next to a black ruler with white markings. The internal components include a battery labeled 'BA820' with various safety warnings and a barcode, and a small circuit board with a gold-colored connector. The ruler is positioned vertically to the left of the housing, showing measurements in millimeters.
EUT Housing and Board View 2	 A photograph showing the front of the EUT housing and its internal components. The housing is placed on a blue surface next to a black ruler with white markings. The internal components include a blue circuit board with various electronic components, a gold-colored connector, and a small circuit board with a gold-colored connector. The ruler is positioned vertically to the left of the housing, showing measurements in millimeters.

EUT Housing and Board View 3	 A photograph showing the internal components of a mobile phone, specifically the EUT housing and board. The board is blue and populated with various electronic components, including a large black battery, a camera module, and various chips. The housing is black and appears to be made of plastic. A ruler is placed next to the device for scale, showing dimensions in millimeters.
EUT Housing and Board View 4	 A photograph showing the internal components of a mobile phone, specifically the EUT housing and board. The board is blue and populated with various electronic components, including a large black battery, a camera module, and various chips. The housing is black and appears to be made of plastic. A ruler is placed next to the device for scale, showing dimensions in millimeters.

Solder
Board-Component

View 2

Solder Board-Component View 3	 A photograph of a blue printed circuit board (PCB) component, labeled 'View 3'. The board is rectangular with various electronic components, including a central integrated circuit (IC) and several smaller components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm).
Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) component, labeled 'View 4'. The board is rectangular with various electronic components, including a central integrated circuit (IC) and several smaller components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm).

Solder Board-Component View 5	 A photograph of a blue printed circuit board (PCB) component with gold-colored solder pads. The component is positioned horizontally next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 100mm long and 20mm wide.
Antenna View	MAIN Ant. NFC Ant WIFI/BT Ant A photograph of the internal antenna layout of a device, showing a black plastic frame with various components. Red boxes highlight the locations of the MAIN Ant., NFC Ant., WIFI/BT Ant., and DIV Ant. Red lines connect the labels to the corresponding components. The device is placed on a blue textured surface. DIV Ant.
