9) Privacy

Control app access to your data, Show passwords, Show all notification content.

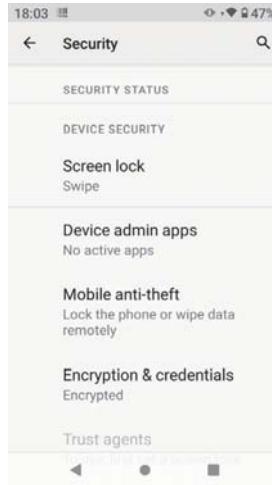

10) Location

Location service can be turned on or off.

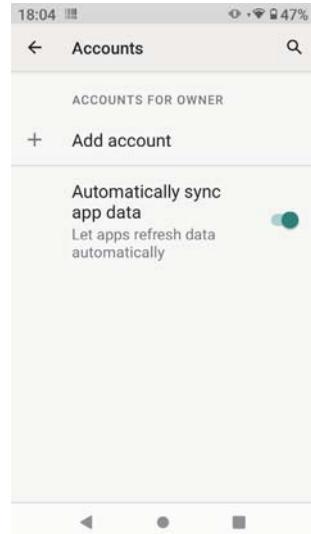

11) Security

You can set **Screen lock**, **Device admin apps**, **Mobile anti-theft**, **Encryption & credentials**, etc.

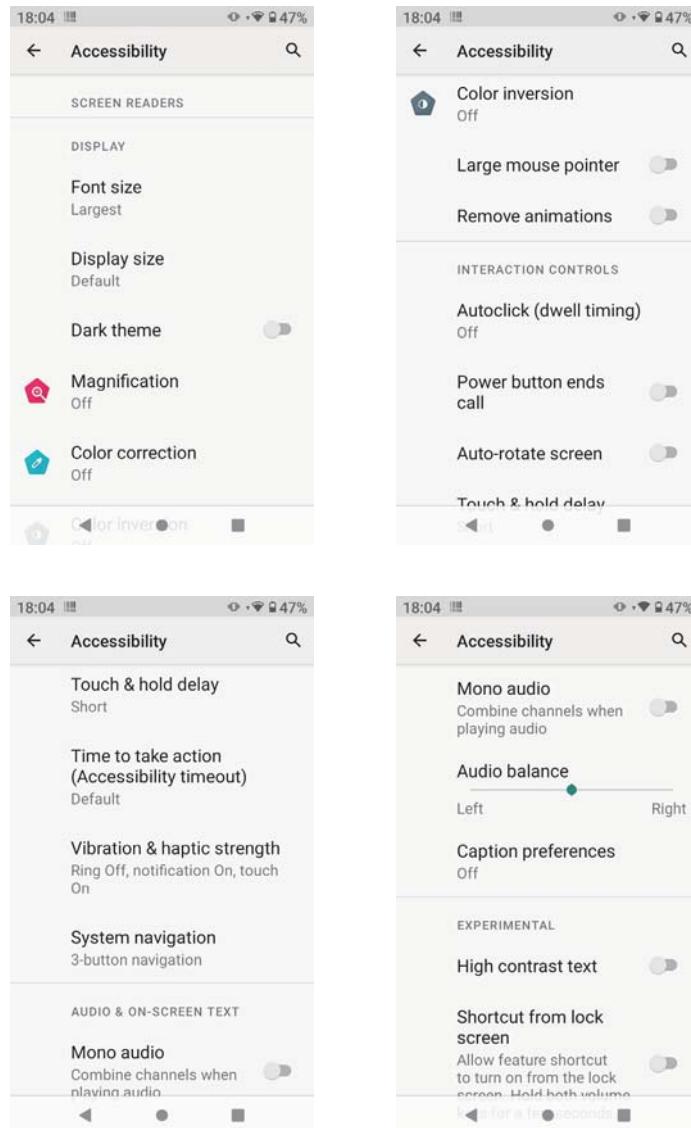

12) Accounts

Add account.

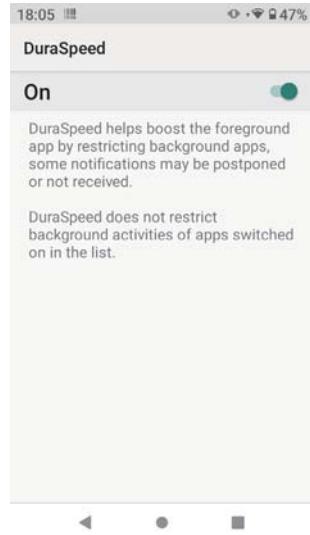

13) Accessibility

You can set **Front size**, **Dark theme**, **Auto-rotate screen**, **Touch & hold delay**, **Vibration & haptic strength**, **System navigation**, etc.

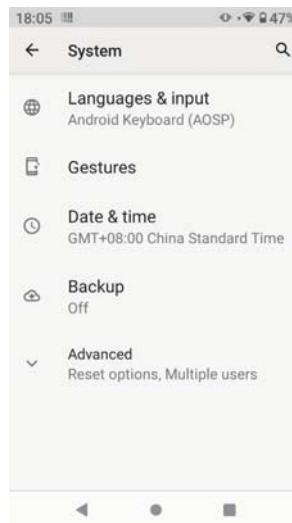

14) DuraSpeed

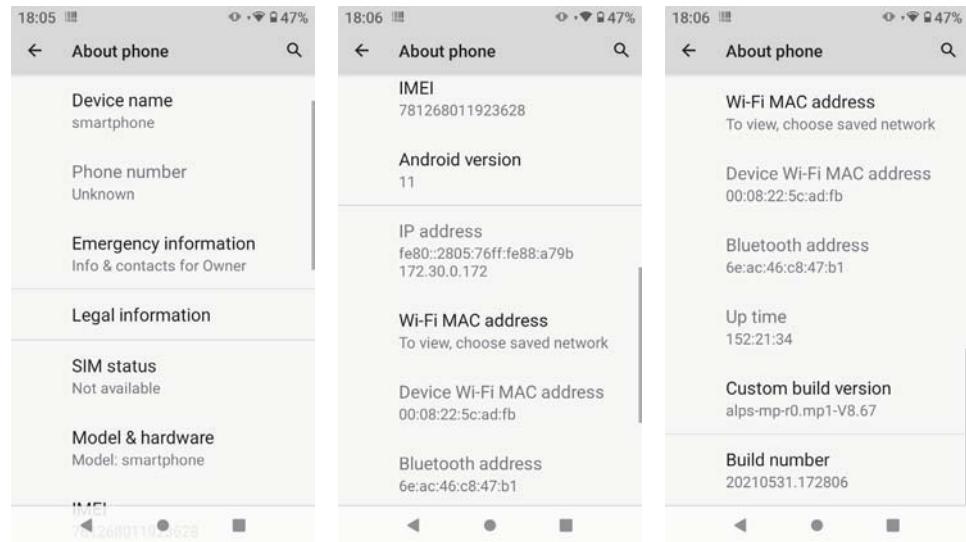

15) System

You can set **Languages & input, Gestures, Date & time, Backup, Advanced, etc.**

16) About phone

View status information, device models, Android version / Android patch level, base band version (mobile network module model), kernel version, software version number, etc.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

SAR Statement for Monitor

Specific Absorption Rate (SAR) information:

This PDA meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. ISED RF Exposure Information and Statement the SAR limit of Canada(ISED) is 1.6 W/kg averaged over one gram of tissue. Device types: tablet has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the tablet kept 10mm from the body. To maintain compliance with ISED RF exposure requirements, use accessories that maintain an 10mm separation distance between the user's body and the back of the tablet . The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with ISED RF exposure requirements, and should be avoided.
