Product Specs

Brand: TRYFUN

Product Name: TRYFUN Wave Series Wearable Remote-Controlled Smart Egg

Product Model: TF-D2-ZL-01P

Dimensions: 93 x 40x34 mm

Weight: Approx. 75.8g

Product Material: ABS

(acrylonitrile-butadiene-styrene copolymer),

silicone

Battery Capacity: 140 mAh

Rated Voltage: 3.7V

Rated Power: 1.2W

Charge Voltage: 5V

Charge Current: 350 mA

※**Charge Time:** Approx. 45 minutes

※**Use Time:** Approx. 45 minutes

※**Waterproof Rating:** Smart Egg IPX 7, remote control is not waterproof

※**Working Noise:** less than 50dB

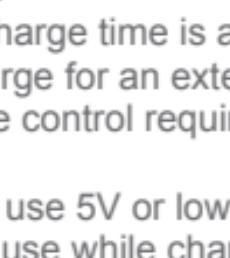

*Above data is gathered under normal use conditions. Values generated during actual use of the situation may vary.

Button Description

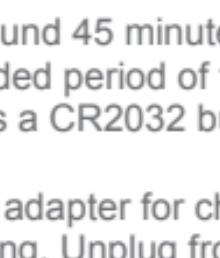

Smart Egg

1. Hold the power button for 2 seconds to toggle the egg ON or OFF. LED light stays lit while ON and disappears when off. After 20 minutes without any operation, device will automatically shut down.
2. Short press the power button to switch between 9 different vibration modes: ① Weak Vibration ② Medium Vibration ③ Strong Vibration ④ Short Pulses ⑤ Variable Intensity ⑥ Slow and Long Pulses ⑦ Short Vibration Twice + Long Vibration Once ⑧ Slow Short Pulses ⑨ Fast Pulses

Long press on/off toggle button
Short press to switch modes

(Figure 1)

(Figure 2)

Remote Control

1. Remove insulation piece on remote control before using it for the first time to ensure that it can be used normally.
2. Long press remote control A button to toggle remote control on/off. LED light will flash continuously when turning on/off. Short press to pause/restart the egg.
3. Short press the B button to switch between 9 vibration modes. LED will flash when switching modes.
4. After 20 minutes of no operation, device will shutdown automatically.

Charging Instructions

1. LED light flashes when charging.

2. LED light will stay on when fully charged.

Please note that while charging:

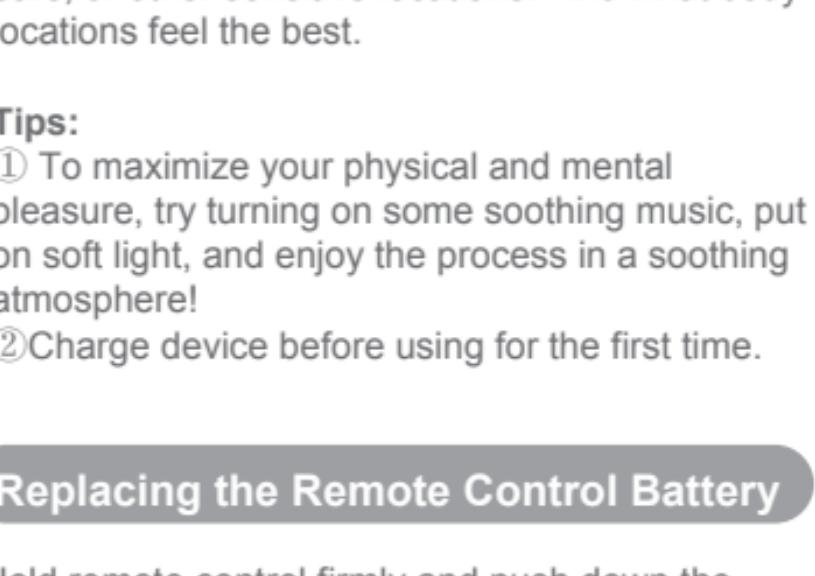

- Ensure the magnetic charging port is completely touching.
- Ensure that hands are dry when handling charger.
- Total charge time is around 45 minutes. Do not overcharge for an extended period of time.
- Remote control requires a CR2032 button battery.
- Please use 5V or lower adapter for charging.
- Do not use while charging. Unplug from charging before use.

Power Tips:

When battery voltage falls below 3.3V (about 20% power) the LED light will flash to indicate low power. Device will shutdown when battery voltage falls below 3.0V.

How to use

1. Before wearing to go out, turn on the egg into the standby state, fix the egg in the panties according to the figure, and use the remote control to switch modes, pause, or restart.

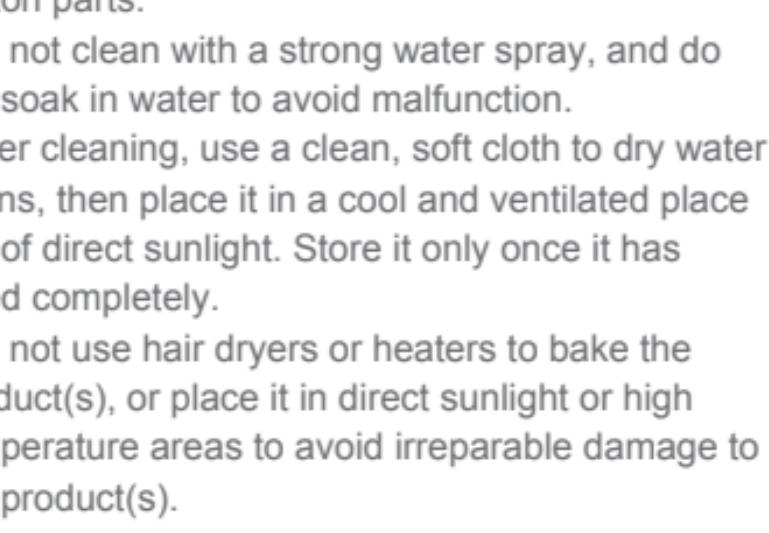

2. For at home use, may be used to stimulate the clitoris, nipples, inner thighs, waist, behind the ears, or other sensitive locations. Find what body locations feel the best.

Tips:

- ① To maximize your physical and mental pleasure, try turning on some soothing music, put on soft light, and enjoy the process in a soothing atmosphere!
- ② Charge device before using for the first time.

Replacing the Remote Control Battery

Hold remote control firmly and push down the back cover. Remove back cover and insert the CR2032 button battery. Put back cover back into position and push the back cover upward.

Product and Parts Recycling Instructions

In order to protect the environment, after the product or its parts are disposed of, you as a consumer are responsible for separating them from household garbage and sending them to qualified recycling sites, where they will be disassembled, recycled and/or reused in accordance with relevant regulations.

• Before disposing of the item(s), if it can be dismantled, the battery must be removed.

• Ensure the item is disconnected before removing battery.

• Dispose of batteries safely.

Cleaning and Storage

- It is recommended to clean product before use. The egg is waterproof and washable, but the remote control is not waterproof and should not be cleaned.
- The product must be cleaned promptly after each use to avoid contamination.
- Avoid using cleaning solutions that contain alcohol, corrosive ingredients, or disinfectants. Use skin care/body wash to clean, then rinse with warm water (under 40 degrees C), avoiding the button parts.
- Do not clean with a strong water spray, and do not soak in water to avoid malfunction.
- After cleaning, use a clean, soft cloth to dry water stains, then place it in a cool and ventilated place out of direct sunlight. Store it only once it has dried completely.
- Do not use hair dryers or heaters to bake the product(s), or place it in direct sunlight or high temperature areas to avoid irreparable damage to the product(s).

Harmful Substances contained in the Product

Part Name	Toxic and Harmful Substance(s)					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent Chromium (Cr6+)	Polybrominated biphenyls (PBB)	Polybrominated diphenyl ethers (PBDE)
Silicone Body	0	0	0	0	0	0
Plastic Inner Shell	0	0	0	0	0	0
Electroplated Decoration	0	0	0	0	0	0
Magnetic Charger	X	0	0	0	0	0
Main Board	0	0	0	0	0	0
Battery Pack	0	0	0	0	0	0
Motor	0	0	0	0	0	0
Wires	0	0	0	0	0	0
Screws	X	0	0	0	0	0

This table was prepared in accordance with the provisions of SJ/T 11364.

0: The content of the hazardous substance in all homogeneous materials of the component is below the limit requirement of GB/T 26572.

X: Indicates that the content of the hazardous substance in at least one homogeneous material of the part exceeds the limit specified in GB/T 26572.

Caution

- ① This product is suitable for adults aged 18 years and above. To avoid infectious diseases, please keep it for personal use and do not share it with others.
- ② Do not use this product if you are not feeling well.
- ③ People who are using medical electronic products (such as pacemakers), pregnant women or other people who are not feeling well should refrain from using this product.
- ④ Please do not disassemble any parts of the product, otherwise it may cause damage to the product or endanger your safety.
- ⑤ When transporting product outside, store it separately to avoid scratches or damage.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IC Warning

"This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:

(1) This device may not cause interference; and (2) This device must accept any interference, including interference that may cause undesired operation of the device."

« Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioelectrique subi, même si le brouillage est susceptible

d'en compromettre le fonctionnement. »

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

L'appareil a été évalué pour répondre aux exigences générales en matière d'exposition aux RF. L'appareil peut être utilisé en condition d'exposition portable sans restriction.
