

Instructional Guide

Leash Identification

The remote control (RC) comes with a standard 2400MHz frequency. It is not compatible with other 2400MHz frequencies. The remote control is not compatible with other 2400MHz frequencies.

Button Identification

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

Display Identification

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

Power On

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

Switch from Manual Mode to Auto Mode

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

Auto Mode

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

Switch from Static Correction On to Static Off

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

Adjust Vibration Levels (Manual Mode Only)

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

Adjust Static Correction Level (Manual Mode Only)

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

NOTE: Leash must be in manual mode for testing.

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

NOTE: Leash must be in manual mode for testing.

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

NOTE: Leash must be in manual mode for testing.

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

NOTE: Leash must be in manual mode for testing.

On/Off, Power, Vibration, Static Correction, and Vibration/Static Correction.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
