Re: Iridium Letter of Authorization for Access to the Iridium Constellation

NON-EXCLUSIVE LETTER OF AUTHORIZATION

Iridium Satellite LLC (“Iridium”) confirms the Jacobs CST 88 Transceiver has been deemed as “Iridium Compatible Equipment” (“ICE”) certified to access the Iridium communications system (“ICS”). Products incorporating ICE must undergo and pass an Iridium Certification process to allow that particular product access to the ICS. Iridium airtime services are made available to duly authorized Iridium partner service providers (SPs) and/or Value-Added Resellers (“VAR”) in good standing, in accordance with the terms of the applicable Iridium Global Service Provider Agreement or Value-Added Reseller Agreement executed with such Iridium SP and/or VAR.

COMMERCIAL PRODUCT CERTIFICATION

Iridium certifies that Iridium satellite communications products and services are regularly offered for other than Government purposes and are sold or traded in the course of normal business operations.

SPECTRUM LICENSE

Iridium is a globally accessible Low Earth Orbit satellite constellation and holds the Spectrum Licenses in the United States.

Sincerely,

Manny Verduco

Manny Verduco, Sr. Contracts Manager, Govt. Programs

Date: July 26, 2023

END OF LETTER
