FCC STATEMENT

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.
- (3) The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning

The device has been evaluated to meet general RF exposure requirements

RF Exposure Information:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Product Reference

Item	Specification
Max Lightness	650 ANSI Lumens
Resolution	1920x1080
Display Ratio	16:9
Contrast	1000:1
Throw Size	80 inch@0.33m
WiFi	IEEE802.11 b/g/n/ac, 2.4G/5G Dual band WiFi
Bluetooth	4.2
Speaker	6Ω 7W*2
Battery	5000mAh, 11.1V
Life time	120mins (Energy -saving mode)
Power Charger	PD TYPE-C 20V/4A
Overall Power Consumption	75W
Android System	Android 9.0
Wireless Protocol	Airplay/Miracast/DLNA
Weight	1.85kg
Product Size	280*185*66 mm
Working Temperature	0°C-35°C
