Charging Instructions

70min

45min
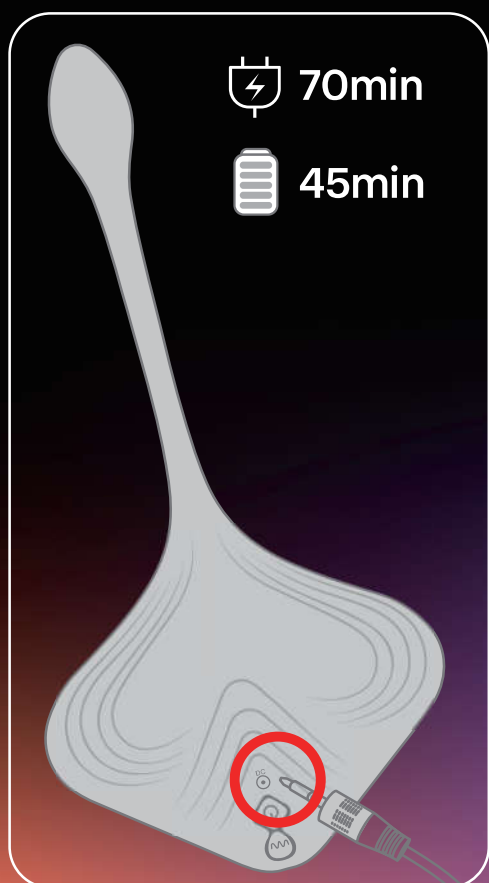

- If a malfunction occurs:

  Power off the device and perform a full recharge before resuming use.

- Do not use the product while charging.

- Recommended power supply:

  Use a 5-volt charger for optimal performance.

- Recharge your toy at least once every 6 months to maintain battery health.

Cleaning & Safety Tips

Clean the product before and after every use.
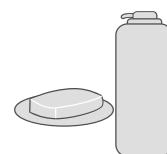

Use warm water and a mild soap or a toy cleaner.

WATER

Avoid submerging the entire product in water.

After cleaning, dry thoroughly with a soft towel.

Never use while charging.

Store away from sharp objects and extreme temperatures (hot/cold).

Store it in a cool, dry place.

For personal use only—do not share.

7

Precautions

SAFETY WARNING: PROPER LUBRICATION IS ESSENTIAL
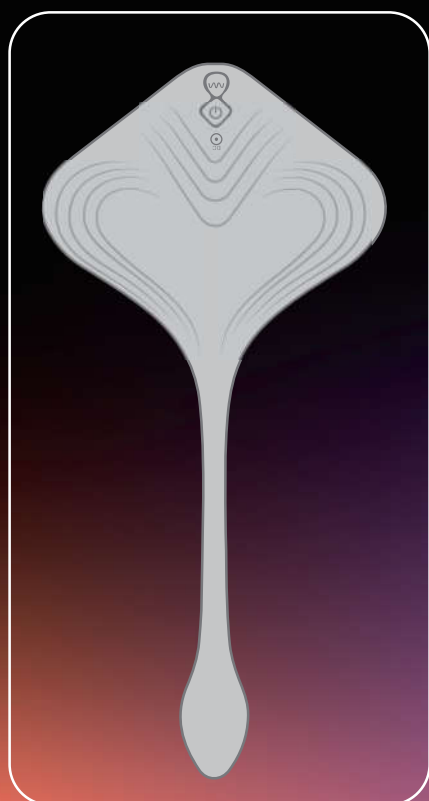

- Always use a water-based lubricant before and during insertion. Insufficient lubrication may cause friction, tearing, or discomfort.

- Never use silicone-based or oil-based lubricants, as they can damage the toy's material.

- Apply generously to both the toy and your body, reapplying every 10–15 minutes during extended use.

- Immediate Stop & Medical Advice:
Discontinue use immediately if you experience resistance, pain, or notice bleeding.
Consult a healthcare professional if symptoms persist.

Important Note:
This product is designed for gentle anatomical use.
Failure to follow these instructions may result in injury.

Troubleshooting & Customer Support

1. My Toy Won't Turn On
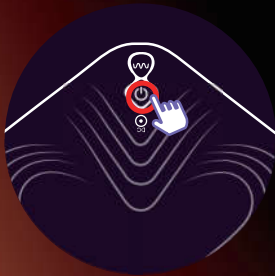

- Ensure it's fully charged.
- Press and hold the power button for at least 3 seconds.
- If it's still unresponsive, contact support.

2. Cannot Connect to the App

- Ensure wireless connection is on and the toy is powered on.
- Restart the app and your phone.
- If connection fails, try deleting and reinstalling the app.

3. Weak Vibration Not Working
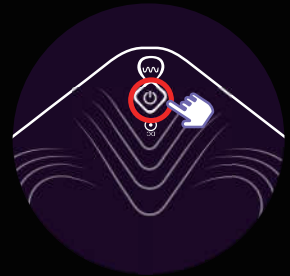

- Try switching to a different mode or a higher setting.
- If it still doesn't work, your product may be defective. Contact us for help.

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiateradio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
