App Store

How to Use

·Power/Vibration Button

- Press and hold for 3 seconds to turn on the device, the product will enter standby mode.
- Short press to turn on/switch to 9-frequency vibrating and lighting mode, long press again to turn off the device.

Connect with the JOYHUB App

1.

Turn on the toy

Press and hold the power button for 3 seconds until the light turns on.

2.

Open the JOYHUB App

(ensure wireless connection is enabled on your phone.)

3.

Pair the toy

The app will automatically detect the toy. If not, try restarting the toy or refreshing BT in the app.

4.

Start exploring!

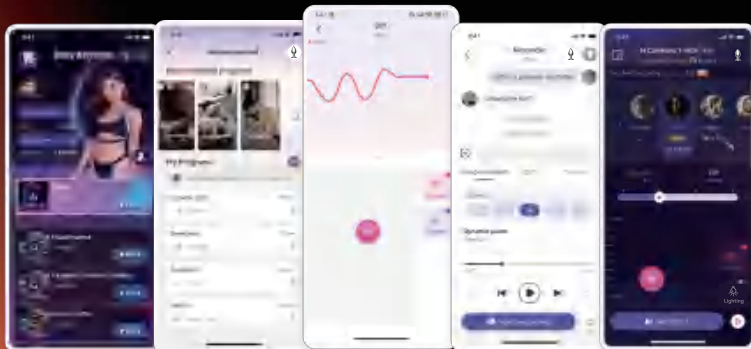

Once connected, enjoy multiple vibration modes, patterns, and remote control options.

Tips for successful connection:

- Fully charge the device before pairing.
- Keep the toy powered on during pairing.
- Close and reopen the app if BT fails.
- Restart your phone if needed.

Charging Instructions

- If a malfunction occurs:
Power off the device and perform a full recharge before resuming use.
- Do not use the product while charging.
- Recommended power supply:
Use a 5-volt charger for optimal performance.
- Recharge your toy at least once every 6 months to maintain battery health.

Cleaning & Safety Tips

Clean the product before and after every use.

Use warm water and a mild soap or a toy cleaner.

Avoid submerging the entire product in water.

After cleaning, dry thoroughly with a soft towel.

Never use while charging.

Store away from sharp objects and extreme temperatures (hot/cold).

Store it in a cool, dry place.

For personal use only—do not share.

Troubleshooting & Customer Support

1. My Toy Won't Turn On

- Ensure it's fully charged.
- Press and hold the power button for at least 3 seconds.
- If it's still unresponsive, contact support.

2. Cannot Connect to the App

- Ensure wireless connection is on and the toy is powered on.
- Restart the app and your phone.
- If connection fails, try deleting and reinstalling the app.

3. Weak Vibration or Not Working

- Try switching to a different mode or a higher setting.
- If it still doesn't work, your product may be defective. Contact us for help.

📞 We're Here for You!

If you have any issues with the product, our customer support is here to help. Feel free to reach out anytime.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
