phone case, you can connect Success.

common problem

Q: Smartphone cases -- don't plug them in?

A: No, the smartphone case is synced through a Bluetooth connection, only when

The transmission requires a small amount of power and doesn't drain the phone's battery the rest of the time.

Q: What if the smartphone case doesn't connect?

A: Because smart phone cases use Bluetooth protocol and plug transmission, it might

If it is affected by some uncertain factors, reinsert the port and connect it

Solve it.

Q: Having trouble syncing new pictures to your smartphone case?

A: Please close and open the APP again, and reconnect the Bluetooth to the interface.

Q: Does the smartphone case need to be plugged -- straight into the body of the phone?

A: The plug of a smartphone case only needs to be plugged in for synchronous transmission,

The remaining time can be determined according to personal habits.

Q: Do smartphone cases heat up?
