

## 433 Telescopic Antenna

Operating Frequency: 400Mhz~470Mhz;

Impedance: 50Ohm;

SWR: <2;

Polarization: Vertical;

Radiation Pattern: Omnidirectional;

Mechanical Specifications:

Dimensions: Length 67.8mm, diameter 5.2mm, number of sections five;

Connector Type: Weld;

Material: Stainless Steel;

Operating Temperature: -40~+85°C;

Antenna Gain: 0dBi

We statement that All measurements were performed radiated and therefore additional antenna gain documentation is not required.
