Common problems and solutions17

Cautions

1. Do Not install and use the unit in moisture, high temperature, outdoor and closed environment.
2. Turn off the power supply before cleaning the unit. Spray cleaning solution on rag to wipe down unit. Do Not spray cleaning solution directly on to unit.
3. Do Not block air vent and other holes, do not put the unit beside near any heat source and other devices which may affect the vent.
4. In order to avoid the high voltage risk, do not attempt to disassemble and repair the unit, please call your representative or ask a professional to maintain if a problem still appear.
5. Use the unit under stable power supply. Do not use it together with other high power devices from the same power supply, this may affect the unit, or even damage it.
6. Turn off power or remove the power cable and network cable during a thunder storm or severe weather.
7. Power off the unit if it is not being used or has stopped working

Shenzhen Yidaheng Technology Co., Ltd.

Packing List

In the carton, you will find the following:

- LCD display
- Remote controller
- Machine base
- Power cable
- Key
- Signal receiving line

Shenzhen Yidaheng Technology Co., Ltd.

Chapter 1 Overview

1.1 Brief Introduction

High definition LCD display has a powerful capacity of image and video decoding, offering full HD up to 1080P. With integrated USB and wire/wireless internet connection, the unit can work well with Information publishing software, which can provide multi-zone function for both horizontal and vertical mode, customized template is available for users with different schedule and playlist.

1.2 Key Features

- Built-in 16GB memory, support TF card and USB expansion, allows you to store thousands of HD media files.
- Supports stand-alone, LAN, WIFI and 3G/4G (Optional) connection.
- Supports portrait and landscape display.
- Support multi-zone screen function, different templates and transition modes are available.
- Capable of running multiple playlists as scheduled.
- Support scrolling text, real-time clock, logo, etc.
- Set the timer On/Off function by daily and weekly.
- High security, encryption function can be used to protect the content.
- Program can be updated via network or USB device on site.
- Media files can be played from USB stick directly, or import the media files from USB stick to internal flash memory in stand-alone mode.
- An external media player can be used via the VGA or HDMI ports.

Press  on the remote controller to navigate to **Choose Screen lock**, Choose a different lockscreen method, and press  to confirm it

3.7 Language

Press  on the remote controller to navigate to **Language**, Select a different desired language, and press  to confirm it

Shenzhen Yidaheng Technology Co., Ltd.

This menu allows you to choose the different language, and press **OK** to confirm it.

3.7.1 Date & Time

Navigate to Date And Time on the main menu and press on the remote to confirm it,

which allows you to set system date and time.

Chapter 4

Common problems and solutions

Common problems and solutions:

1. The display screen is black and there is no display.

- 1) Please check that the device is connected to the power supply;
- 2) Please check the main board indicator.

2. The advertising machine has images but no sound

- 1) Check the audio cable is inserted into the PC audio output interface.
- 2) Check whether the audio cable is loose.
- 3) Whether the remote control is set to mute or adjust the volume too low.
- 4) Check whether the speaker wire interface of the driver board is loose.

If there is no problem, it may be caused by damaged speakers. Advertising machine needs to replace the speaker.

3. Advertising machine has sound but no image

- 1) Please check the connection of the video signal cable, whether there will be an image display in the remote control operation.
- 2) Please check whether the signal source selection is correct.

If there is no problem with the above, it may be caused by damage to the driver board. The advertising machine needs to replace the driver board.

4. The remote control cannot be operated

- 1) Please check whether the remote control has batteries installed.
- 2) Please check whether the remote control is aimed at the remote control sensor.
- 3) Please check the connection between the remote control sensor and the driver board.

If there is no problem with the above inspection, it may be caused by damage to the remote control sensor or damage to the driver board.

If the above situation occurs in the advertising machine, you can get in touch with our after-sales staff as soon as possible. We will give you the greatest help.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
