

About Our Application

Our product application will irregularly schedule upgrade software, to compatible more mobile phone models and system editions.

Product Parameters

Work environment:0°C-45°C, relative humidity:15%-90%
Storage environment:-20°C-60°C, relative humidity:5%-95%
Power:20W
Input voltage/ current:12V/1.67A(MAX)
Battery operating voltage:7.4v
Battery capacity:3000mAh
Service duration:about 12 hours under after fully charged
Size:about(L)104*(W) 64.5*(H) 40mm
Weight:about 1.58kg

Product Material

Fabric:48% nylon, 36% polyester fiber, 16% spandex
Filler:100% polyester fiber

Flame Rating

Mat:BS-5852-2
Control box:UL94 V-0

Safety Precautions

Warning

Prohibited Users	Within the first 6 months of pregnancy
Cautious Users	If your body feels abnormal during use, stop using it immediately and consult a doctor.

FCC COMPLIANCE STATEMENT:

This equipment complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

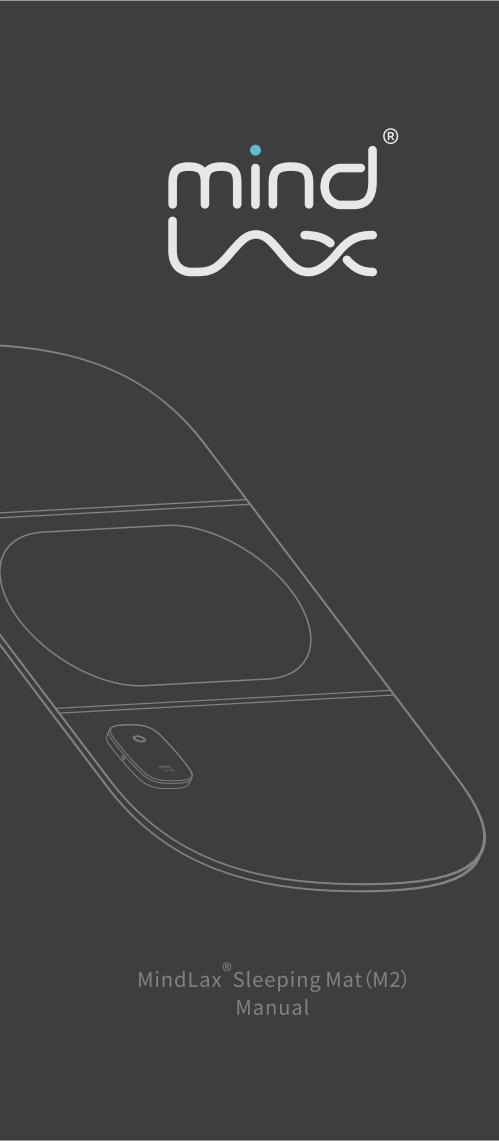

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.

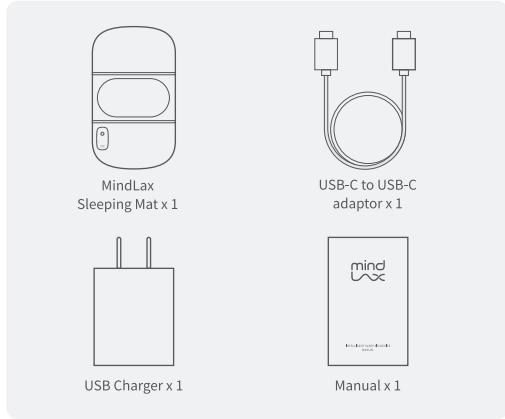

MindLax®
Sleeping Mat (M2)
Manual

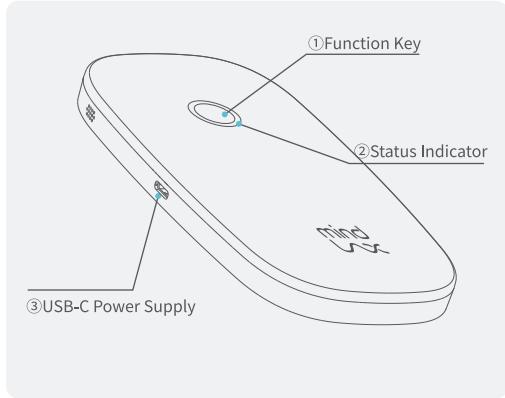

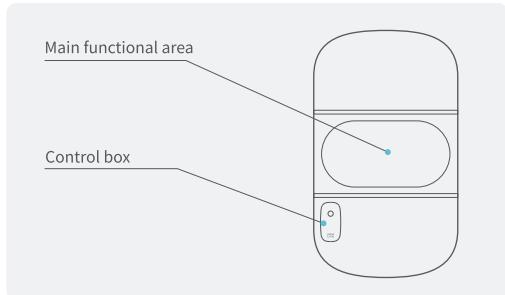

Preface
