

S27无线耳机

使用说明书

S27产品示意图

产品规格

- 产品型号: S27
- 蓝牙版本: Bluetooth V5.3+BR+EDR+BLE
- 支持模式: a2dp\avctp\avrdtp\avrcp\hfp\spp\lmp\att\gap\gatt\rfcomm\sdp\l2cap\profile\
- 灵敏度: -90dBm

• 信号距离: ≥10米 (无任何较大障碍物的理想环境中)

• 电池规格: 头机 3.7V/35mAh, 充电盒 3.7V/320mAh

• 播放时间: 约6小时

• 通话时间: 约5小时

• 待机时间: 约72小时

• 充电时间: 给充电盒充电约2小时, 给耳机充电约1小时

• 充电盒给耳机充电次数: 单耳机8次

功能操作说明

Size so as to avoid long-term listening in the state of high volume

Interference.

3. Try not to use this earphone in places with interference sources.

Otherwise, it may affect the earphone signal.

4. Try to avoid using this earphone in corrosive environment.

So as not to affect the function of the earphone.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.
