

## 1. Add device

### 1.1.Download Smart Life App

Please scan the QR Code, or get Smart Life downloaded from App Store or Android Market.

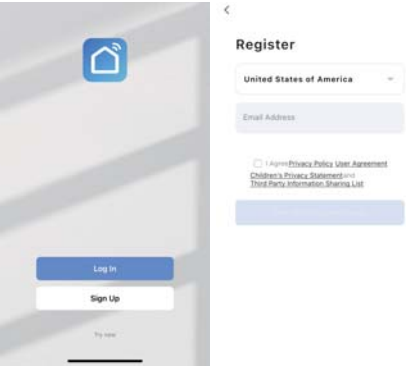

App name in Play store for Android

App name in App Store for IOS

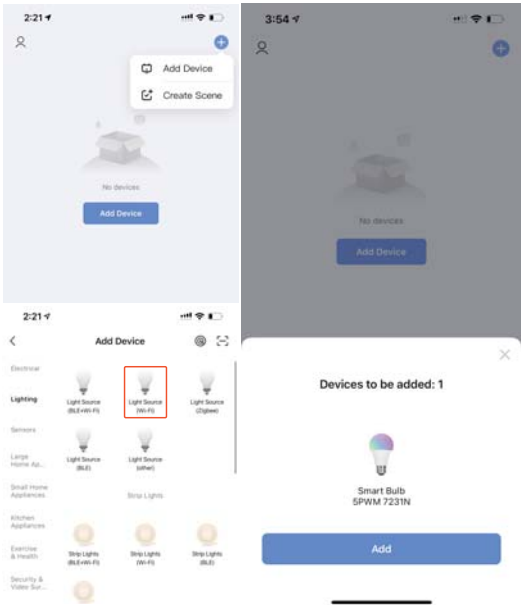

### 1.2 Sign up and log in

### 1.3 Turn on the pairing mode

Turn on-off-on-off-on-off-on then the bulb will flash as ready to pair

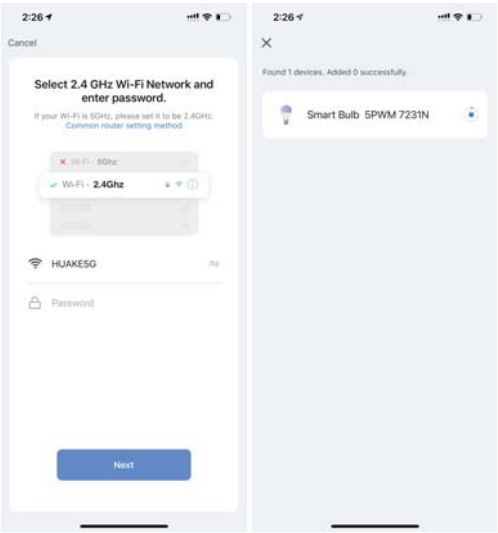

#### 1.4.1 Select non-BLE device Select your device manually

#### 1.4.2 Select BLE device The system will search for nearby device

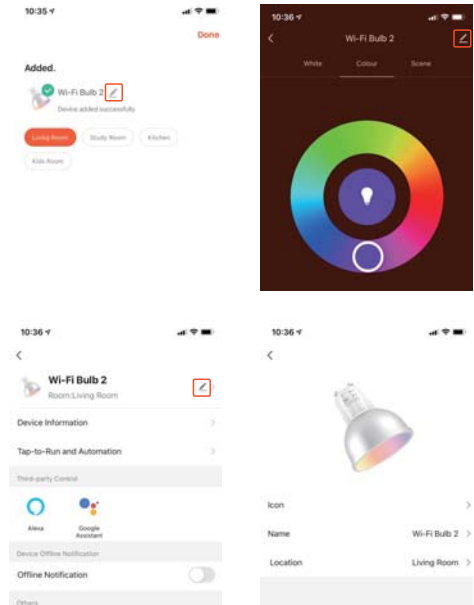

### 1.5 Connecting WIFI and adding device

Device only supports 2.4GHz. If your WIFI is 5GHz, make sure to set it as 2.4GHz.

### 1.6. Rename the device

After the device is added successfully, click the device description text to modify device name. The name of the device is recommended to use easy pronunciation of the English words. (Amazon Echo only supports English temporarily)

Multiple devices can be added and renamed according to the above procedures.

### 2. Enable Smart Life skill in Alexa APP

Choose "Skills" in the options bar, and then search "Smart Life" in the input box.

Select Smart Life in the search results, and then click "Enable Skill"

Then input the user name and password that you had previously registered. Only support the account in the United States.

### 3. Control smart device by Voice

After the above operation is successful, you can control the bulb via Echo.

#### 3.1. Discover devices

Firstly, you need to say to Echo:

Echo(or Alexa), discover my devices.

Echo will start to find the devices which is added in Smart Life APP, which will take about 20 seconds, then it will tell you the result.

You can also click "Discover devices" in Alexa APP, then it will show the devices that found successfully

#### 3.2. Control devices by voice

Attention: The name of the device must be consistent with the addition of Smart Life app.

You can also group the bulbs and give instructions to control them together.

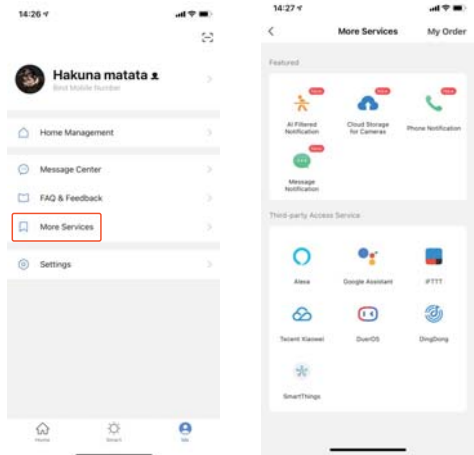

Attention:  
Echo is one of the wake-up names, which can be any of these three names(Settings): **Alexa, Echo, Amazon**

#### 3.3. Support Skill list

You can control devices by instructions like these:

- ) Alexa (or echo), turn on [bedroom light]
- ) Alexa (or echo), turn off [bedroom light]
- ) Alexa (or echo), set [bedroom light] to 50 percent
- ) Alexa (or echo), increase [bedroom light] to 50 percent
- ) Alexa (or echo), decrease [bedroom light] to 50 percent
- ) Alexa (or echo), set [smart heater] to 34
- ) Alexa (or echo), raise [smart heater] by 4
- ) Alexa (or echo), lower [smart heater] by 2

For other third-party access service, you can view the connection steps here.

Product name: WIFI intelligent RGB anti-fog downlight  
Model: FWTD000001

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Warning Statements:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.
