3 in 1 Magnetic Wireless Charger

Instruction Manual

M1108Q

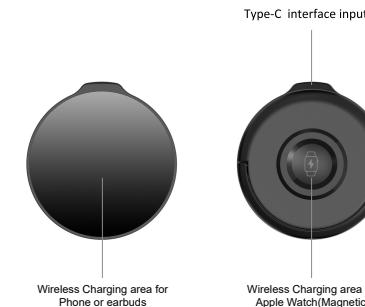

Notice: To ensure charging 3 devices safely and efficiently, you must use a 5V/3A adapter and quick charge cable. To charge 15W fast charging phones, you must use a 9V/3A adapter and quick charge cable.

Product Introduction

The 3-in-1 wireless charger is a compact charging house that is powered from a single outlet. It can charge 3 devices. To charge your mobile phone, apple watch, and/or Air Pods or some other TWS, just place them in the proper positions on the 3-in-1 wireless charging will automatically start.

Product Appearance

Operation

1. Connect the charger to a 5V/3A, 9V/3A adapter with a type-C quick charge cable. The charger will then power on.
2. Place your phone or earbuds on the wireless phone charge area to charge.
3. Place your Apple Watch on the magnetic Apple Watch area to charge.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement

To maintain compliance with FCC'S RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
