

EUT View 3	 A photograph of a wooden rectangular device, likely a speaker or amplifier, lying flat on a grey marble surface. The device has two circular black ports on its front face and four red mounting brackets, one on each corner. A yellow measuring tape is placed vertically to the left of the device, showing measurements from 01 to 05 inches.
EUT View 4	 A photograph of the same wooden device from a different angle, showing its rounded front and a black front panel. A control panel with several buttons is visible on the top edge. A yellow measuring tape is placed horizontally below the device, showing measurements from 00 to 08 inches.

EUT View 5	 A side view of a wooden electronic device, possibly a portable power bank or a small speaker, with a smooth, curved wooden finish. A small black rectangular label with white text is visible on the top surface. A yellow measuring tape is placed horizontally below the device for scale.
EUT View 6	 A front view of the same wooden electronic device. The front face features a large, rounded rectangular opening, likely a speaker grille. Above this opening is a small black control panel with several buttons. A yellow measuring tape is placed horizontally below the device for scale.
