## XII. FCC statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## FAQ

**Question1:**
Is there a detailed installation and trouble shooting guide available for this car stereo?
**Answer:**
There is a QR code for your reference in the package. Please scan the code and watch the video. Any other questions, please feel free to contact us. We are here to help you. Thank you.

**Question2:**
What should I do when I encounter the problem that the firmware is required to be updated?
**Answer:**
You can mail us and state your problems you have encountered, and we will provide you with the corresponding updated software according to your problems.

**Question3:**
Why does the time and date keep resetting?
**Answer:**
Please check the car battery, it is usually caused by low on battery.

**Question4:**
What to do when the machine is not working?
**Answer:**
You can reset the car radio by inserting a pin into the RST hole on the exterior of the machine. If previous operation is not working, please contact our technical customer service staff to provide you with an upgraded software.

**Question5:**
When connecting Car play and mirror link functions, it keeps disconnecting and reconnecting.
**Answer:**
It is usually caused by the loose data cable. You need to use a new phone data cable. Note: the original charging cable is the best choice.

**Question6:**
How do I change the start-up screen's logo to my own car's logo?
**Answer:**
Enter the setting surface, find "LOGO" and enter the password "0000" to select different car logos.
