

Clothing Clip

Your new headset includes a clothing clip to ensure the cable does not get caught or inadvertently pulled. The clothing clip should be fastenlevel, ensuring that there is sufficient slack on the cable to allow free movement of your head without disturbing the headset position.

Ear Cushion Removal

Using both thumbs, remove the ear cushion by gently prying the earplate away from the groove on the receiver

Maintenance

The ear cushions can be removed for cleaning or replacement

Accessories

Replacements & Enhancements:

- 1. Leatherette Ear Cushion/s
- 2. Spare Foam Ear Cushion/s
- 3. Clothing clip
- 4. USB Female Type A to Male Type C Adapter
- 5. Soft Carrying Case

Safety

For your own safety, this product should only be used with CE and RoHS approved equipment. Using this headset with non approved equipment can void this product warranty.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1:  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2:  
Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Industry Canada Regulatory Information

This Class B digital apparatus complies with Canadian ICES-003.  
Cet appareil numérique de la classe B est conforme a la norme NMB-003 du Canada.

Headset Components

- 1. Visual Light Up Display to Mute Microphone
- 2. Volume Control
- 3. On/Off Hook Key Function for Teams Version

Using Your Headset

Connect your 99 USB Series Headset to a free USB port on your PC. There is a USB Type C adapter included if needed.

Wearing Your Headset

The headset can be worn on either the right or left side by rotating the microphone boom over the headband to accommodate your preference

How to Wear the Headset

Place the headset receiver to your ear(s), if using a single ear headset you should set the T-bar above the other ear. Adjust the headband until it is comfortable, ideally ensuring that there is virtually no pressure felt on the ear(s).

Mic Positioning

To avoid low or distorted sound, and to provide clear and crisp telephone calls, the microphone should be positioned within an inch or two (30-40mm) from the corner of your mouth. The microphone boom arm is flexible and will move in a variety of directions to ensure the best fit.
