Solder Board-Component View 4	 A photograph of a small, black, rectangular solder board component. The component has four yellow circular solder points at its corners. It is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. The ruler shows dimensions of approximately 100mm by 100mm.
Solder Board-Component View 5	 A photograph of a larger, rectangular solder board component. It features a central silver-colored rectangular area, likely a microchip or sensor. The board has several gold-colored pins or connectors along its edges. It is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. The ruler shows dimensions of approximately 100mm by 100mm.

Solder Board-Component View 6	 A photograph of a small, black, rectangular electronic component, likely a solder board, placed on a blue textured surface. The component has two gold-colored SMA connectors on the left side. A black L-shaped ruler is positioned next to the component for scale, showing measurements in millimeters. The component has a yellow 'L' shaped marking on its top surface.
Solder Board-Component View 7	 A photograph of the same electronic component from a different angle, showing the underside. The component is black with various electronic components visible, including a large integrated circuit (IC) in the center. Two gold-colored SMA connectors are visible on the left side. A black L-shaped ruler is positioned next to the component for scale, showing measurements in millimeters. The component has a yellow 'L' shaped marking on its bottom surface.

Antenna View	RFID Antenna  A top-down photograph of a black, rectangular RFID antenna. The antenna is centered on a blue, textured background. A red rectangular box highlights the top surface of the antenna, which features a white RFID symbol and the text 'RFID'. A red line points from the 'RFID Antenna' label to the top of the antenna.
	 A bottom-up photograph of the same black, rectangular RFID antenna. The antenna is centered on a blue, textured background. The bottom surface of the antenna is visible, showing a gold-colored SMA connector.
