

UHF Antenna BUA-C02-901

Product specification

Order No: 1008040000002

Model No: BUA -C02 -901

Basic parameters:

Dimensions	86mmx58mmx20.0mm	Type of Antenna	External Antenna
Material	Ceramics+PC	Color	Black (default)

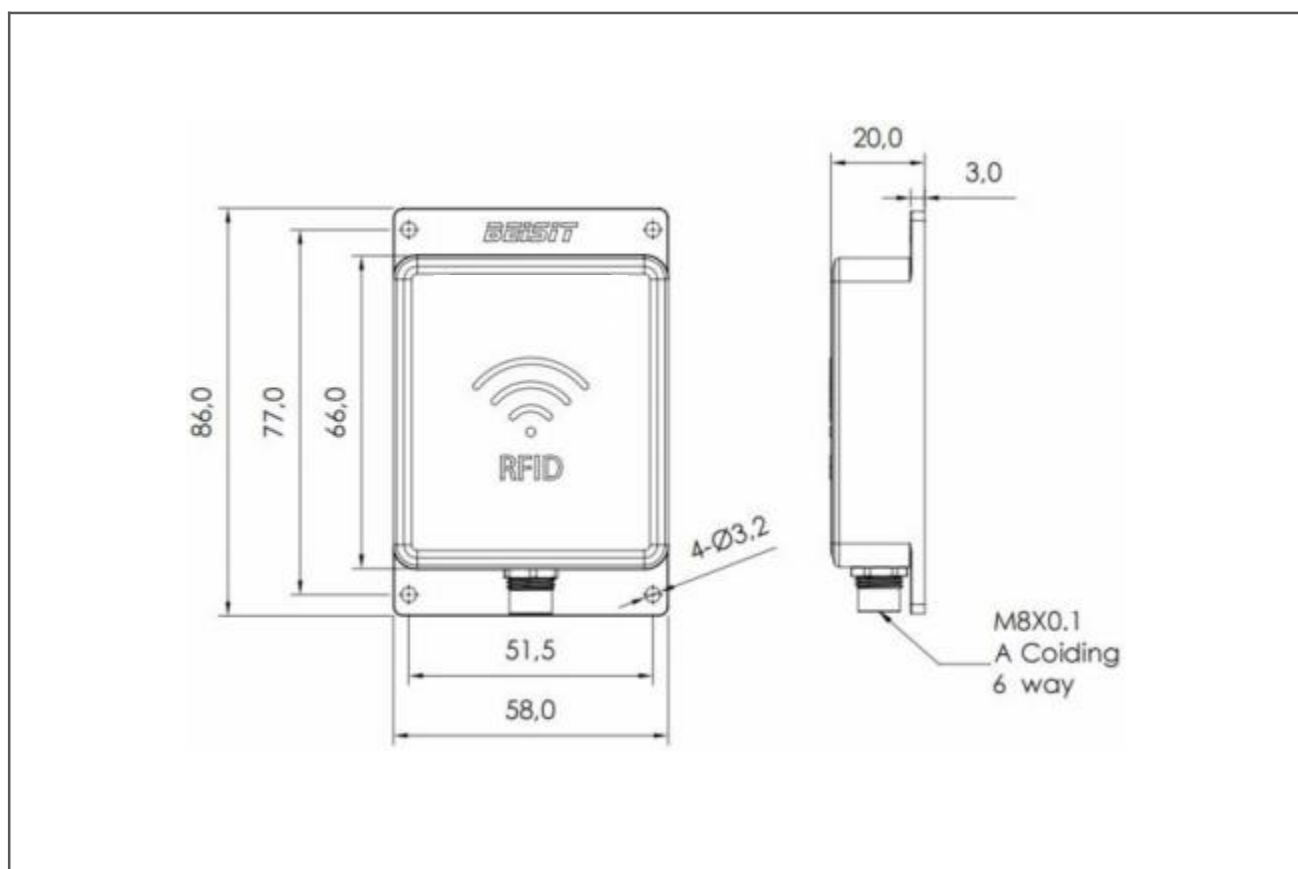

Environmental parameters:

Operating temperature	-20°C~70°C	Working humidity	5%RH~95%RH
Storage temperature	-40°C~85°C	Protection level	IP65

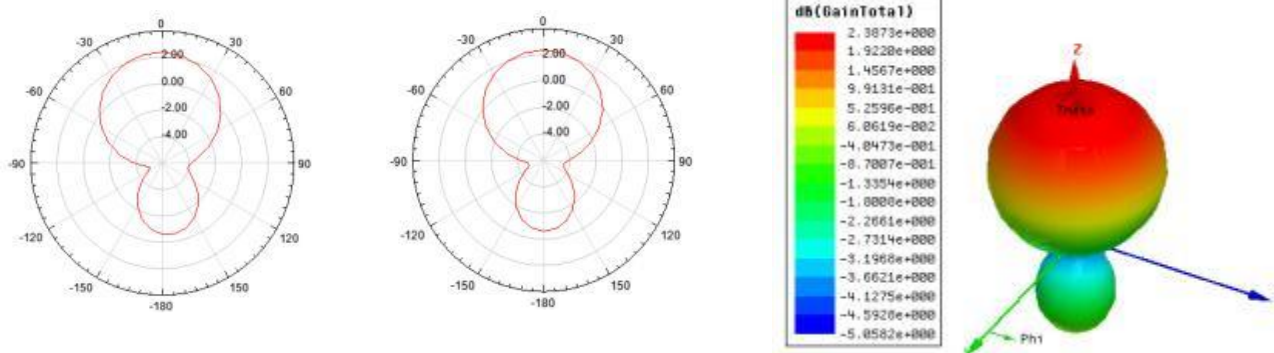

Performance parameters:

Frequency range	902MHz~928MHz	VSWR	$\leq 1.2:1$
Max Gain	2.4dBi	Polarization mode	Circular Polarization
Antenna impedance	50 Ω	Recognition distance	2.5M

Product Dimensions: Unit mm

Antenna RF parameters:

Please note that the design data listed here does not include product changes. For any additional information, please contact customer service. Also, it is the responsibility of the user to verify functionality, compliance with applicable laws and directives, and electrical safety in specific applications.
