# Overview

Amanda's ergonomic exterior design, aims to arouse into each point of pleasure of women's body, and can meet the desire of both the body and the mind. With two near-silent motors ,she can make you enjoy the pleasure as much as you want.

Amanda can be connected to APP in smartphone via bluetooth, which make you enter at any time into a joyful and passionate fantsy zone. She can aslo be used single. With 6 adjustable vibration modes, she can meet different physical demand. Food-grade silicon material is harmless to human body, which ensures the safty in the process of using. Two vibrating end are respectively equipped with near-silent motors stimulating the vagina and the clitoris simultaneously.

## Structure Diagram

# Basic operation

Please charge for 2 hours before first using(as shown below)

## Basic Operation

On:Pressing the "O"button for 2 seconds,LED lights on, Amanda turns on.

Off:Pressing the "O"button for 2 seconds,LED lights out,Amanda turns off.

LED indication:

a: LED is falshing(once a second): Amanda is on,then you can use and control it with the button "O", or you can control it remotely with APP in your smart phone.

If Amanda is without operation more than 30 seconds, LED is flashing breathing.

b: LED is in fast flashing(ten times a second): Amanda is in a low power state, and needs to charge.

c: LED is in slow flashing(once every 2 seconds),Amanda is in a state of charge.

d: LED lamp flashes breathing(the light is gradually in cycle from dark to brighten) Amanda is in panel control mode,in this mode, you can control Amand through buttons on control panel.If you want to connect to APP,double-click any button on control panel, and activate the APP connection mode.

e: LED brights: in state of charging, Amanda is full of power. If not, and Amanda is in connection to APP, then you can use APP to remote control Amanda.

# Basic operation

- In single mode, two pleasure points both have 6 kinds of vibration modes. You can click to "I" in control panel to switch to clitoris pleasure point, and
- click to "O" to switch to "G spot".
- Note: if Amanda is in state of no vibration and no operation, she will automatically turn off 3 minutes later.

# Maintenance

- Always clean your EFEELINK thoroughly before and after each use. We recommend that you use the special cleaning product to clean EFEELINK. If this is not available, wash the stem with warm water and a respected antibacterial soap, rinse with clean hot water and pat dry with a lint-free cloth or towel.
- we recommend that a premium water-based lubricant is the surest option to increase comfort.
- Never use cleaners containing alcohol, petrol or acetone to clean EFEELINK.
- Never use massage oils or hand cream as lubricants for the intimate areas.
- Please store EFEELINK in full power after each use.
- Avoid leaving your EFEELINK in direct sunlight and never expose it to extreme heat.
- Do not use on swollen or damaged skin.
- Keep your EFEELINK out of the reach of children.
- If your EFEELINK appears to function abnormally, turn off and enter into "[www.efeflink.com](http://www.efeflink.com)" and find the "custom service" to check out the solution of the problems. If you have any questions about EFEELINK, please E-mail us: [service@efeflink.com](mailto:service@efeflink.com)
- Important: For adult use only. Those who may be pregnant, have a pacemaker, diabetics, phlebitis or thrombosis should consult with a medical professional before using any personal massage product.

## **Important Statements:**

This device complies with Part 15 of the FCC Rules. Its operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
