Cable length: Type C, 100CM

Speaker

Bluetooth: V5.1

Frequency response: 20-20khz

Power supply: USB, 5V 500MA

Working range : Over 10M

Speaker : 5W±10%

Table Lamp

LED qty: 24PCS (12 RGB,12 WARM)

Color Temperature: 2700K-5500K

Brightness: 44LM±2

Wireless Charger

Input: 9V/2A(QC3.0 required)

Transfer Distance: ≤5MM

Output: 15W

1. Bluetooth Speaker

Start pairing automatically once the power supply via Type C cable, Follow the operating instruction of your Bluetooth device(phone, pad etc) and allow it to search Bluetooth state, after a few seconds your mobile will discover the Bluetooth speaker under "L28RGB" ,Select this and your device will confirm this pairing. You can start play music through the speaker.

2. Led Lighting

Default RGB light will turn on automatically once the power supply is on by charging cable; it will be light dancing rhythmically while Playing Music;

Short Press once touching button to ⑥ change to Warm "Strong" Mode;

Short Press once touching button ⑥ again to change to Warm "Middle" Mode;

Short Press once touching button ⑥ again to change to Warm "Weak" Mode;

Short Press once touching button ⑥ again to go back to RGB Lighting Mode;

Long press 2 seconds touching button ⑥ to Turn on/off the Light at any light mode,

3. Wireless Charging

Put the smart phone to the Phone Holder(No matter Holder 1 or 2), meet the phone's suitable area for wireless charger , then start charging automatically, the white led indicator on the back will start slow flashing once the wireless charging working.

Make sure your phone with wireless charging function such as IPHONE 8 or upper version; if your phone is without wireless charging function, please insert a wireless charging adaptor to your phone for wireless charging.

Friendly Reminder:

- 1) The Max Output of Wireless charger is 15W, and support 10W/7.5W/5W;
- 2) If you use QC3.0 adaptor(9V/2A), and the output 15W of Wireless charger is running with Speaker and Light together, The device may cut off due to the overload;
- 3) If you need the device working with wireless charger(15W), speaker and Light friendly together, please get a adaptor with input 9V/3A;
- 4) If you use QC3.0(9V/2A) adaptor, the Max Output of wireless charger is 10W with speaker and light working together;

4. Phone holder

- 1) There are two different holding ways for different phone size, Max Width for phone standing is 88MM, and no limited size for phone laying;
- 2) It is only as a phone holder if the device is power off; it is perfect working with wireless charger together when it is power on.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm from your body.
