### **CAUTION:**

The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

### **FCC Compliance Statement:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. This device must accept any interference received, including interference that may cause undesired operation.

#### NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

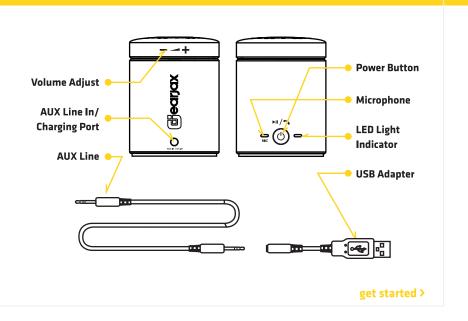

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet different from that to which the receiver is connected.
- · Consult the dealer or an experienced radio/TV technician for help.

### FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

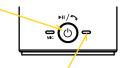

# **OPERATING INSTRUCTIONS**

236mm\*118mm

## **Setting Up Your Speaker**

- 1 Verify that **your device** (phone, mp3 player, etc.) bluetooth is on.
- Press and hold power button for two seconds to turn on speaker.

- Red and Blue LED lights will flash alternately when the speaker is searching for bluetooth connection.
- In the Bluetooth settings on your device, select "earjax Echo" when it appears as an option to connect.
- S When connection to device is completed, Blue LED will stay on. Blue LED will flash when music is playing.

## **Charging Your Speaker**

- The Red LED will flash when the battery is low.
- 1 Connect auxilliary line to USB attachment (if not already connected).

Connect the auxilliary end to the AUX port in the speaker, and the USB end to a computer or other charging station.

The Red LED will be on while the speaker is recharging, and will turn off when the recharge is complete.
