Request for a Modular Approval - FCC ID: 2AA7R465BT01

Dear Sirs,

Our client's module with the above FCC ID is seeking FCC authorization as a Modular transmitter. The requirements of the FCC Public notice DA00-1407 and KDB 996369 are met. Please see the following comments: Please contact us if you have any additional questions.

Item	Requirements	EUT
1	Have its own RF shielding	Device is equipped with metal shielding to cover RF section. Refer to external photos
2	Have buffered modulation/data inputs (if such inputs are provided),	The EUT has buffered data inputs.
3	Have it own power supply regulation	3.3 VDC Refer to installation manual and test report.
4	Meet the antenna requirements of Section 15.203	The device will only be used with the tested integral antenna. Requirements are specified in test report , item antenna application. The requirements of part 15.203 and 15.204 are met.
5	Be tested in a stand-alone configuration, i.e., the antenna, AC or DC power and data input/output lines must be connected to the module but, the module must not be inside another case during testing	Device was tested in a stand-alone configuration on a Test Jig. Refer to setup photos & internal photos.
6	Be labelled with its own FCC ID number, and if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The module has its own label. Refer to FCC ID label format and location file.
7	The modular transmitter is manufactured so that the user cannot influence the operation of the transmitter that will operate outside of the scope of the regulations.	The modules complies with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee.
8	Compliance with RF exposure requirements is the responsibility of the grantee and will be addressed for all final host configurations	Compliance with RF exposure requirements
