About tablet - Information about your Android device

### How to Use TF card

1. Insert the TF card into the TF card slot. Gently push TF card into slot until it clicks into place.
2. A prompt will be seen on the screen saying “Preparing SD card “

### Removing TF card

1. Close all applications and documents which have been opened from the TF card.
2. Select “Setting” and find “Storage” then click “Unmount SD card”.

3. A prompt will be seen on the screen saying “ SD card safe to remove”
4. Gently press the TF card to remove and pull out the TF card.

Note: Insert the TF card in correct position, otherwise it will damage the card and the slot.

### **Software Keyboard**

The tablet has a software keyboard which automatically show up when you tap the place on screen where text or number are to be entered.

### **Touch Screen**

The touch screen responds to finger touch.

Note: don't place any object on the touch screen for it may damage or crush the screen.

Single Click: single click one icon to choose the icon or option you want.

Long Press: press and hold one icon to make appear a menu related to the executed function (if available).

Drag: drag on the screen and you can move between magic cube sides or drag the application icons into the shortcut bar.

### **How to connect with computer**

Note: Turn on your Tablet before connect the Tablet to PC by USB cable.

- 1 Use USB cable to connect MID with computer. System will notice USB connected on bottom of screen.

- 2 Press USB connected on the top bar, then click Turn on USB storage, click OK.
3. Then the USB connection has been successfully.

## Connection to Internet

### **Wireless:**

- 1 Select “Settings”
- 2 Select “Wi-Fi” and slide OFF to ON status.

- 3 All detected wireless networks in the area will be listed, Click to select desired wireless connection.
- 4 Enter WEP key or network key if necessary.

- 5 Once connected to a wireless network, settings will be saved
- 6 Wireless icon will appear on the taskbar when connected successfully.

Note: when the tablet detects the same wireless network in the future, the device will connect to the network automatically with same password record.

## Web Browsing

Connect to the internet and launch the browser.

## Camera

Touch the icon to enter camera mode and the interface is shown as follows:

1. Touch the icon  in the middle to take photo
2. Move the icon  on bottom and you can switch camera mode to camera recording mode.
3. touch the icon  on the top right to see the previous picture and you can also delete, share, set it as the wallpaper. Click return button to exit camera interface.

## Trouble Shooting

### **Close Application**

All running applications take up system memory and will slow down system response. Please shut down all **idle applications** to release

memory and get the system speed back to normal.

To close the application, click the icon on the shortcut bar to enter the system configuration interface. Select the **Application** → **Running services** and the interface is shown as follows:

Tap the application you want to close. A pop-up window will be displayed.

Tap "Stop" to close that application.

### **Mandatory Power off**

1. Press and hold the power button for 5 seconds and the device will be powered off.
2. Press the reset button on the back and the device will be forced to be powered off.

### **Restore Default Setting**

If you want to reset the factory setting and erase all materials, please press **Settings** → **Privacy** → **Factory data reset**.

***\*\* Warning: Factory data reset setting will delete your data and configuration of system and applications from downloading.***

**\*\*Please use this function carefully.**

## FCC Information and Copyright

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,

uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference

to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is

encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

### 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**FCC RF warning statement:** the device has been evaluated to meet general RF exposure requirement , The device can be used in portable exposure condition without restriction.
