Re: Request for confidentiality

Applicant: PerkinElmer Technologies GmbH & Co. KG
FCC ID: 2AA8Z-XRPAD4336

To whom it may concern,

Permanent Confidentiality

Request is hereby submitted by PerkinElmer to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block diagrams**
- **Detailed Operational/Functional Description**
- **Parts list**

The referenced product is a non-consumer device inaccessible to general public. It is only serviceable by the licensee or designated technicians.

Short-term Confidentiality

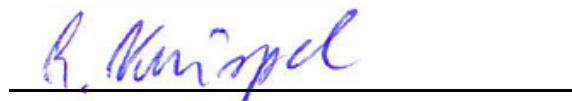

Request is hereby submitted by PerkinElmer to withhold from public review for a period of 180 days from the Grant of Equipment Authorization and prior marketing, certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept confidential for a period of 180 days from the date of Authorization:

- **Test setup photos**
- **Internal photos**
- **External photos**
- **User manual**

PerkinElmer has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.

If you have questions or need further information, please contact the undersigned.

Sincerely,

Richard Knispel
Sr. Design Engineer, Electronics
PerkinElmer Technologies GmbH & Co. KG
