

Circuit Description

EQ276W is LED Monitor with VGA port input, DVI port input, Audio input, and inner_speakers. The Power by exterior-adaptor input(DC12V 3A), The VGA/DVI input signal and Audio signal after the IC(TSUMU58NWHL-LF-1 and PAM8003) treatment, the input to the Light Emitting Diode (abbreviation:LED)displayer. The CPU (TSUMU58NWHL-LF-1) crystal oscillator is 14.318MHz. The LED displayer power by Constantcurrent IC HQ9001 input .
