Dear Examiner,

This is to request a Class III permissive change for FCC ID: 2AAEH-103, 2AAEH-104, 2AAEH-105 and 2AAEH-106.

The major change filed under this application is:

Change #1: Additional frequencies at band edges and band overlaps

The software versions affected by this Class III Permissive change start with version 1.6.3. All versions prior including 1.6.2 are approved under the original grant or prior Class III Permissive Changes

No changes were made to the Software Distribution and Security mechanisms. As such the documentation with the original grant still applies.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,
