Ref: FCC Class III Permissive change for FCC ID: 2AAEH-107  
Applicant: CBF Networks, Inc dba Fastback Networks

Dear Examiner,

This is to request a Class III permissive change for FCC ID: 2AAEH-107. This is similar to the Class III permissive change that was applied to 2AAEH-103, 104, 105 and 106 in early 2015.

The major change filed under this application is:

Change #1 Adding DFS bands UNII-2A and UNII-2C under Part 15.407:  
5250-5350 MHz, 5470-5725 MHz

The software versions affected by this Class III Permissive change start with version 1.6.8. All versions prior including 1.6.7 are approved under the original grant. For clarity, versions prior to 1.6.7 do not run on this hardware platform.

No changes were made to the Software Distribution and Security mechanisms. As such the documentation with the original grant still applies.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

David Koberstein  
Vice President
