Ref: FCC Class III Permissive change for FCC ID: 2AAEH-107
Applicant: CBF Networks, Inc dba Fastback Networks

Dear Examiner,

This is to request a Class III permissive change for FCC ID: 2AAEH-107.

The major change filed under this application is:

Change #1 Add a mode that changes four transmitter streams from correlated to uncorrelated and allow the carrier frequency of each stream to be independent of the others

The software versions affected by this Class III Permissive Change start with version 1.7.0. All versions prior including 1.6.8 are approved under the original grant and previous Class III Permissive Changes.

No changes were made to the Software Distribution and Security mechanisms. As such the documentation with the original grant still applies.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

David Koberstein
Vice President
