

Test Setup Photographs for the Liberator V1000 Dual Port**1. Radiated Emissions**

1.1. Configuration 1: Site 1

**Photo 1****Photo 2**

Radiated Emissions (continued)

1.2. Configuration 2: Site 2

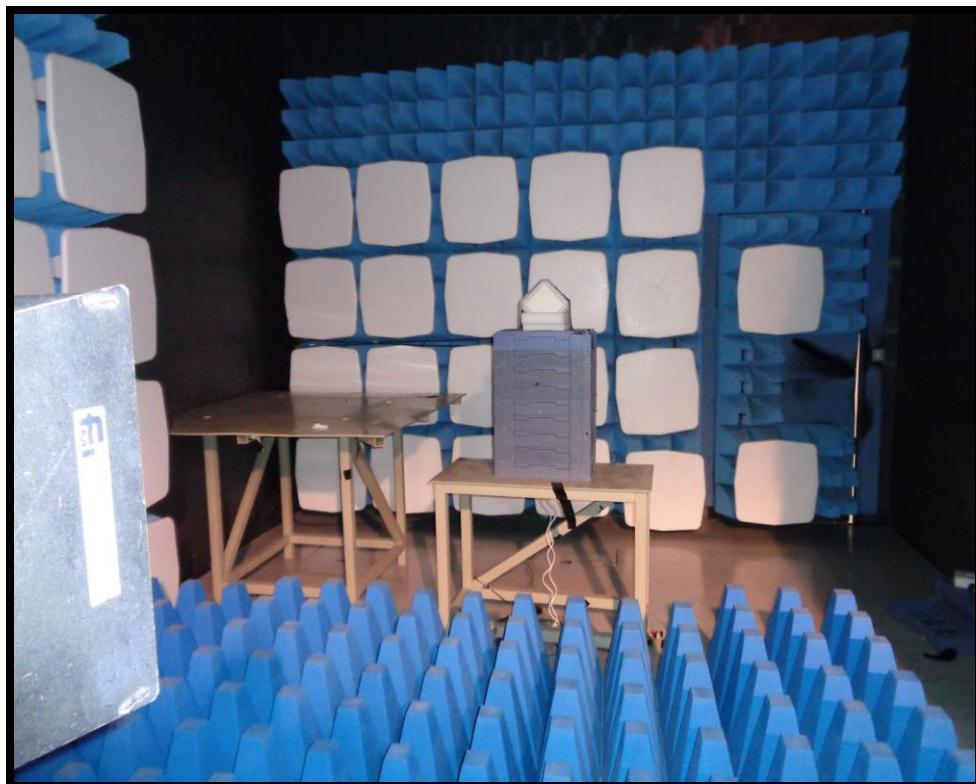

Photo 1

Photo 2

2. Conducted Measurements

2.1. Configuration 1: EIRP & Peak Conducted Output Power

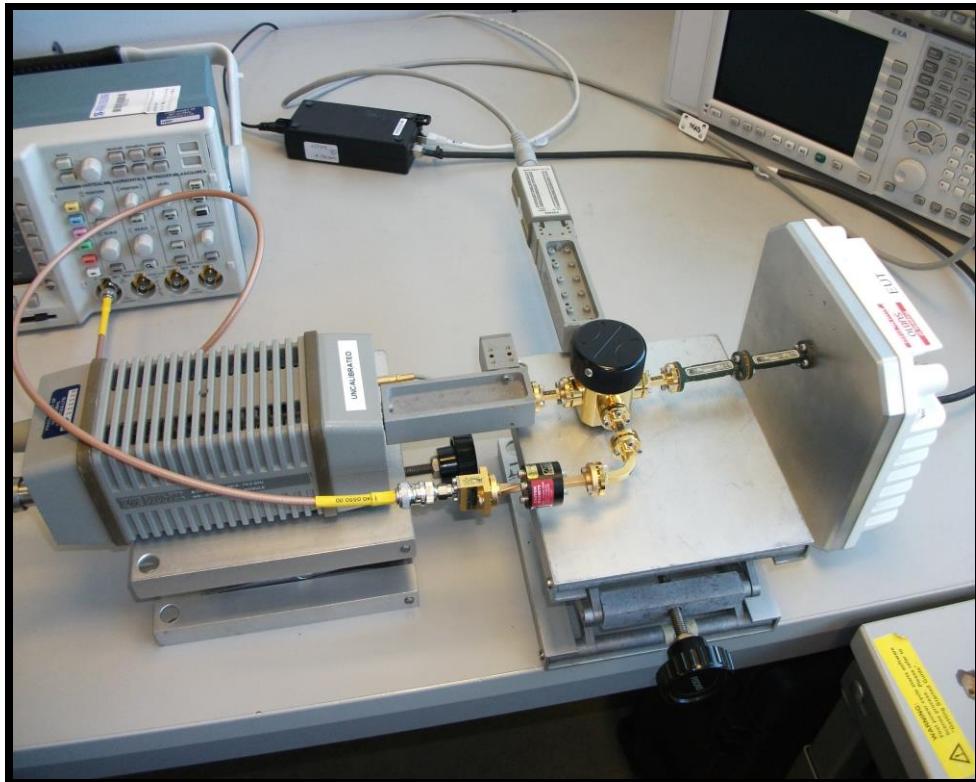

Photo 1

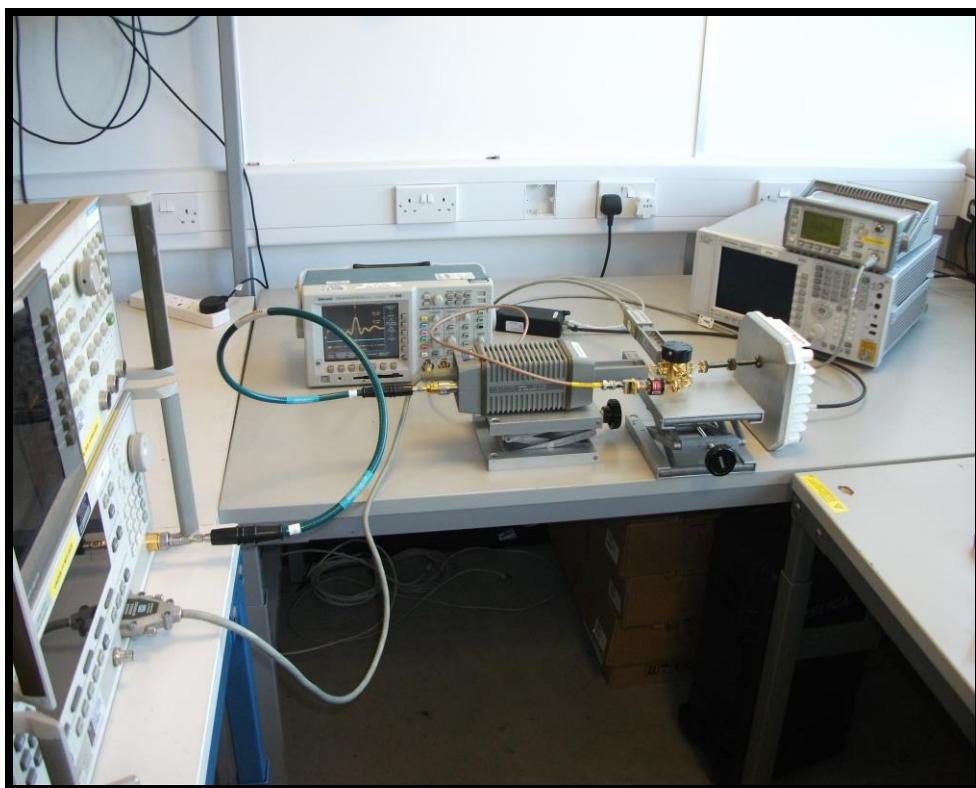

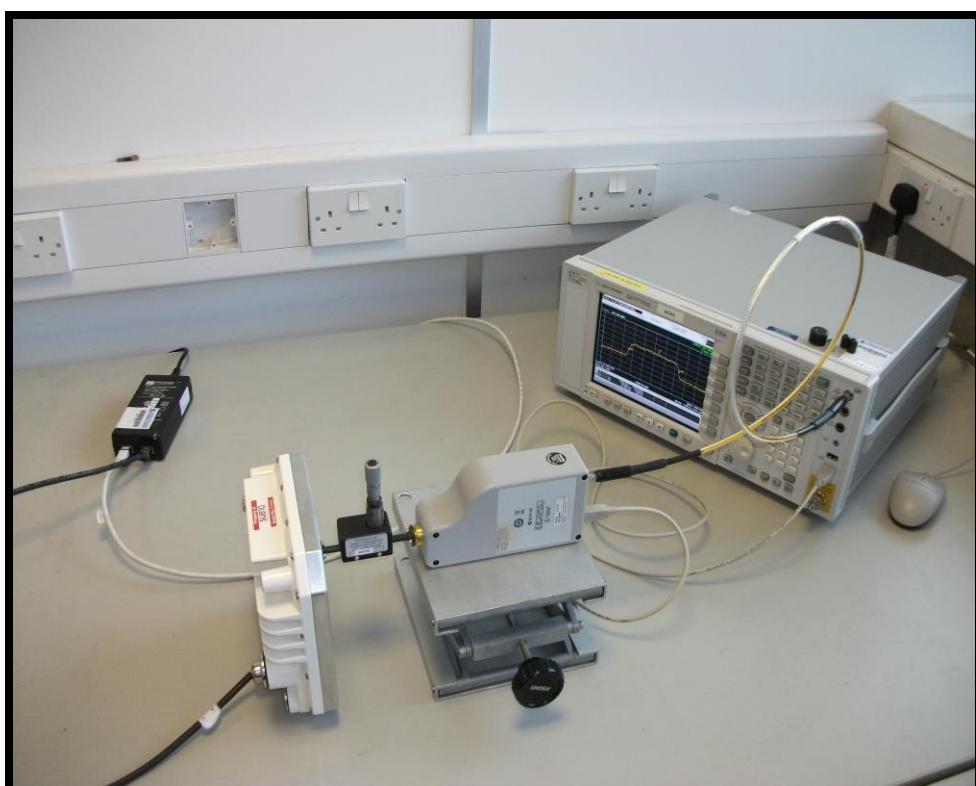

Photo 2

Conducted Measurements (continued)

2.2. Configuration 2: Emission Bandwidth

**Photo 1****Photo 2**

Conducted Measurements (continued)

2.3. Configuration 3: Frequency Stability

**Photo 1****Photo 2**

Conducted Measurements (continued)

2.4. AC Conducted Emissions
