

106.59 mm

149.03 mm

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Model #: AMS-1000R
AMS-2000B
AMS-3000G

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

1. Introduction

The Airlink101 AMS-series is a portable Bluetooth speaker powered by an internal lithium ion battery for mobile listening. With its built in microphone, the AMS-series also doubles as a speaker phone system for making hands free phone calls. The speaker delivers high quality audio through wireless Bluetooth connection or through a direct wired connection via an included 3.5mm audio cable. This mobile speaker will connect with most Bluetooth devices with an effective range of 10 meters (30 feet).

2. Charging

Before using your new mobile speaker for the first time, be sure to give it a full charge. Plug the charger into the charging port. A red indicator light will be shown when the battery is charging. A full charge takes approximately 2 hours, but we recommend leaving it plugged in for 4 hours for your first charge. When your AMS-series speaker has finished charging, the red indicator light will turn off.

1. Introduction

The Airlink101 AMS-series is a portable Bluetooth speaker powered by an internal lithium ion battery for mobile listening. With its built in microphone, the AMS-series also doubles as a speaker phone system for making hands free phone calls. The speaker delivers high quality audio through wireless Bluetooth connection or through a direct wired connection via an included 3.5mm audio cable. This mobile speaker will connect with most Bluetooth devices with an effective range of 10 meters (30 feet).

2. Charging

Before using your new mobile speaker for the first time, be sure to give it a full charge. Plug the charger into the charging port. A red indicator light will be shown when the battery is charging. A full charge takes approximately 2 hours, but we recommend leaving it plugged in for 4 hours for your first charge. When your AMS-series speaker has finished charging, the red indicator light will turn off.

3. Bluetooth Pairing

- Begin by turning the mobile speaker on using the power switch located on the bottom of the speaker. After 3 seconds, you will hear 2 beeps indicating that your Bluetooth pairing mode has been activated.
- Activate your Bluetooth-ready device and begin a device search, make sure the mobile speaker and your Bluetooth device are within reasonable distance.
- When the mobile speaker is discovered, connect the two devices. If your Bluetooth device asks for a pass code, the default code of the mobile speaker is "0000."
- That's it! You will hear 2 confirmation beeps, indicating that your speaker has successfully paired with your device. Enjoy quality audio listening from your new mobile speaker!

4. Button Function

Key Function	Key Mode	BlueTooth	Line
—	Short press	Previous track	n/a
	Long press	Lower volume	
+	Short press	Next track	n/a
	Long press	Raise volume	
▶	Short Press	Play/Pause, Start/End phonecall	

5. Specifications

- Bluetooth 2.0
- Built-in wire antenna
- 3.5mm line-in port
- Micro USB charge port
- Non-slip base
- 450 mAh Lithium Ion Polymer Battery

6. Troubleshooting

If your mobile speaker cannot play music, please check the following:

- 1) Make sure your mobile speaker is fully charged
- 2) Check that your device is paired with your speaker or connected through 3.5mm line
- 3) Make sure your mobile speaker volume is turned up (mobile speaker will emit a beep sound when turned to max volume)

7. Technical Support
