

Wireless Subwoofer Kit

Please read this user's guide before using your new subwoofer kit.

User's Guide

1500492

Package Contents

- Transmitter
- Receiver
- 9V AC Adapter (2)
- User's Guide

Features

- 2.4GHz digital wireless link provides crystal clear audio.
- 34-channel selection.
- Up to 100 feet (30.5m) operation distance between transmitter and receiver (line of sight).

Specifications

Audio Output Level 2V

Frequency Response 20-20,000Hz

Audio Distortion <1%

Signal to Noise Ratio >80dB

Specifications are subject to change and improvement without notice. Actual product may vary from the images found in this document.

Set up the Transmitter and Receiver

Place the transmitter and receiver within 100 feet of each other, on a flat surface or mounted on a wall.

1. With the audio source off, connect the transmitter to the subwoofer jack with an RCA cable (not included).
2. Connect the supplied AC adapter (9V, 200mA) to the transmitter **DC IN 9V** jack, and then plug it into a standard household outlet.
3. Connect the receiver to your subwoofer with an RCA cable (not included).
4. Connect the supplied AC adapter (9V, 200 mA) to the receiver **DC IN 9V** jack, and then plug it into a standard household outlet.

Note:

- Use only the supplied AC adapters. Using adapters not designed for this product may cause damage.
- If you mount the receiver on a wall, do not block the ventilation slots.
- Unplug the AC adapters from the AC outlet before disconnecting from the transmitter or receiver.

LED Indicator

- OR -

LED Indicator

Use Your Subwoofer Kit

When connected, the transmitter and the receiver LEDs flash green and blue. When the audio source is active, the speakers automatically activate, and the LEDs light blue.

Optimize Your Surround Sound

Many surround-sound systems let you adjust the delay between the front and rear speakers. To optimize your setup, adjust the rear speaker delay response by about 20 milliseconds.

Change the Channel

If you experience any interference, press and hold the **M** button on both units. The units will automatically match up.

Change the Channel

If you experience any interference, press and hold the **M** button on both units. The units will automatically match up.

FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

■ Reorient or relocate the receiving antenna.

■ Increase the separation between the equipment and receiver.

■ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

■ Consult the dealer or an experienced technician for help.

If you cannot eliminate the interference, the FCC requires that you stop using your product. Changes or modifications not expressly approved by the responsible party could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

■ Use only the supplied AC adapters. Using adapters not designed for this product may cause damage.

■ If you mount the receiver on a wall, do not block the ventilation slots.

■ Unplug the AC adapters from the AC outlet before disconnecting from the transmitter or receiver.

Complies with the European Union's Directive on Hazardous Substances Directive, which protects the environment by restricting specific hazardous materials in products.
