

# GEMINI PLAY2GO

## QUICK SETUP

### BOX CONTAINS THE FOLLOWING:

- PLAY2GO Portable PA
- (1) Microphone + cable
- (1) Power Cable

1. Place the PLAY2GO in the desired location for operation and plug it into a power source or verify the battery is fully charged for cord free operation.
2. Turn the volume levels on the PLAY2GO down prior to turning the unit on or connecting any input sources.
3. Power On the PLAY2GO.
4. Connect any audio input sources by referencing the setup diagram:
  - Bluetooth – Press the Bluetooth button for 3 seconds and the blue led will blink and a beep will be heard as it locates a device to connect with. Then consult your device's operating instructions for finding and connecting to another Bluetooth device. Connect to Bluetooth Key "0000."
  - USB – Plug your USB Memory Stick into the correct input and use the controls on the MP3 Player to find and play tracks
  - SD – Plug your SD Card into the correct input and use the controls on the MP3 Player to find and play tracks
  - Microphone Inputs – Connect a 1/4" Microphone cable to the input.
  - AUX Input – Stereo RCA or Stereo RCA to 1/8" cords can be used to connect an external MP3 player or another device.
5. Begin playback on desired device (Begin with the volume low in order to find the ideal level settings on the PLAY2GO and your input source).
6. Turn the volume on the PLAY2GO inputs and master volume up to the desired level.

## **FCC STATEMENT**

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

## **FCC Radiation Exposure Statement**

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body
