Subject: Antenna Gain Confirmation

To whom it may concern

This is to state that Unmonday Oy hereby confirms that the new antenna design (2JWI01) from Unmonday Oy has the same gain as (2.0dBi) as that of already certified FCC ID: [ZQO-CX8703J](#) to the FCC.

New antenna has the same gain (2.0dBi) as that already certified, so no additional RF exposure evaluation is required.

Yours faithfully,

Teemu Vainio  
CTO
