## WIRELESS RED POINT PRESENTER

### User manual

WP2268

It is a great tool for PowerPoint presentations. it contains two parts: a transmitter and a USB receiver.

#### Features:

1. Easy carry, the transmitter and receiver are integrated into one unit for easy carry.
2. Advanced radio frequency (RF) technology that works through walls and the controlling distance is up to 10 meters /30 feet away, so you never have to stand at beside of your computer.
3. Easy to use, it is USB plug-and-play. No driver required. Just plug the receiver into the USB port on a PC and it works within seconds.
4. Multi-functional presenter

It combines the function of a laser pointer, page up and page down for PowerPoint presentation. If you need flash memory, the receiver supports to be added built-in flash memory.

#### Get start it:

Battery installation: Push the battery cover switch on the side of presenter to forward, open the battery cover, and insert batter into the battery holder.

#### USB receiver installation:

### Using:

1. Connect the USB to your PC. The flashing of LED indicates your connection is right..

2. Press the button of page up or page down on the transmitter 1-2 seconds.  
The flashing of receiver's LED indicates it is synchronization with transmitter.
3. There is a red laser shoot out when you press the laser button on transmitter.

### Technical parameters

#### ■ Technical parameters

	Transmitter	Receiver
Laser	Wavelength: 650nm Power output<1mW	
Power	23A 12V	Powered by USB port
Working current	15mA	10-12mA
Dimension	115mm(L)x18mm(H)x19mm(W)	96mm(L)x11mm(H)x23mm(W) )
Weight	20g	15g

## Components

1. Transmitter
2. Receiver
3. User manual

## Product details

## Warning

To avoid possible eye damage, never point the presenter at people especially their faces, or look directly into the presenter's laser beam.

Avoid pointing the presenter's laser beam at a mirror or other highly reflective surface.

Keep the presenter away from children.

Never view the presenter's laser beam using telescopic devices, such as a microscope or binoculars.

Any attempt to disassemble, adjust or repair the presenter may result in exposure to laser light or other safety hazards.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
