# Galileo™

Robotic motion control  
for iPhone

by  
**mōtrr**

user manual

## In the box

1. Plug Galileo into a USB charger to wake it up from sleep mode. An iPhone or iPad charger works great.

2. Download the **Motrr app** from the App Store. Launch the Motrr app to discover all the apps optimized for Galileo.

## For Galileo with Bluetooth:

3. Turn on Bluetooth in your iOS device settings.

Twist the base of Galileo to pair with any Bluetooth enabled Galileo app open on your iOS device.

## For Galileo with 30-pin connector:

3. Attach your compatible iOS device.

Swap in the appropriate rubber insert for a secure fit.

4. Manually adjust Galileo to either landscape or portrait position.

5. When no device is attached, rotate the base to check the battery level for Galileo. You can also view the battery level in the Motrr App when connected to Galileo.

6. Hold Galileo's upper ring when removing your device to protect the hinge.

## Battery Warning

### Contains built-in 3.7v, 1000 mAh LiPo battery

- Lithium Polymer batteries are extremely hazardous and liable to cause serious injuries to persons or property. The user accepts liability for the use of a Lithium Polymer battery. As the manufacturer and the distributor cannot ensure the battery is used correctly (charging, discharging, storage, etc.), they cannot be held liable for damages caused to persons or property.
- In the event of battery leakage, avoid the liquid coming into contact with skin and eyes. In case of contact with the skin, wash copiously with soap and water. In case of contact with the eyes, rinse copiously with cold water and consult a doctor. If you notice a suspicious smell or noise or observe smoke around the charger, disconnect it immediately.
- Non-compliance with the instructions below could result in fire, shock, or electric explosion.

"Made for iPod" and "Made for iPhone" mean that an electronic accessory has been designed to connect specifically to iPod or iPhone and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod or iPhone may affect wireless performance.

## FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Caution:** The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

## Caution:

Risk of explosion if battery is replaced incorrectly. Dispose of used batteries properly.
