safety guidelines

- Please read the instruction carefully before use and keep them for reference.
- Keep in a cool dry place, keep the microphone away from heat and open fire.
- Be sure to hold onto the handle tightly.
- Do not attempt to repair the speaker.
- Do not attempt to use the speaker with AC input, be sure the device is unplugged from power and charged before each use.

troubleshooting

- When microphone dings during use, battery is low. Turn device off and charge as soon as possible.
- If Bluetooth® will not connect, turn off mic and Bluetooth on your device and be sure to connect in range.

battery care

- Be sure to charge the microphone fully, before use.
- Do not overcharge - Charging takes 2-3 hours, overcharging may severely affect battery life.
- Speaker may lose charge if not used for a long period.
- Only use included cable for charging this device.
- Indicator light will turn red when charging and turn off when fully charged.

FCC statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy. If not installed and used by the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
