## MINI MICROPHONE

Thank you for choosing our product. This smart wireless microphone offers reliable, professional-quality recording with a simple plug-and-play setup – no app required.

It can be used for live streaming, Vlog recording, interviews, video tutorials, and more. The system includes two parts: a transmitter and a receiver.

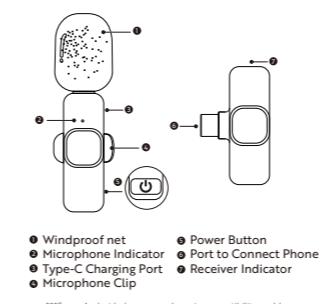

## Packing list

1. Microphone transmitter
2. Receiver
3. Lightning® adapter
4. Charging cable
5. User Manual

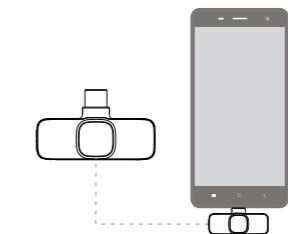

\*\*\*Some Android phones may have incompatibility problems due to system, please consult your dealer for details\*\*\*

## Description

## How to use

Step 1: Connect the receiver to your phone using the designated port.

Step 2: Press the microphone's power button. The microphone is powered on when the indicator light turns green.

Step 3: When the receiver's green indicator light remains solid, the connection is stable. You can now open your camera, live streaming app, or other compatible apps to start recording audio.

Step 4: After recording, you do not need to unplug the receiver to play back your video!

Note: When the receiver is unplugged from the phone, the microphone will automatically power off after 3–5 minutes.

5

## About UI

Battery capacity: 40 mAh  
Charging interface: Type-C charging cable with Lightning adapter 5V 0.5A Max  
\*Charging cable included.  
Bluetooth range: 10 meters  
Bluetooth frequency: 2400MHz - 2483.5MHz  
BT ID: D068842  
FCC ID: 2AAANZMWC

## RF Exposure information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

## FCC WARNING

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy. If not installed and used by the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
