WIRELESS MOUSE

MOUSE SHAPED

ITEM: CM-ES15-MS
USER'S MANUAL

Thank you for purchasing the Mouse Shaped Wireless Mouse, item CM-ES15-MS. A 2.4GHz USB receiver is included inside of your mouse. Please read this manual carefully.

INSERTING THE BATTERY

In order to operate your mouse successfully, you will need to insert 1 AA battery (not included). To do so, follow the steps below.

1. Open the battery compartment cover sideways to reveal the battery compartment. The battery compartment cover is located on the bottom of your mouse.

2. Insert 1 AA battery inside the battery compartment, making sure to insert it with the correct polarity (+, -) as shown on the battery compartment.

3. Once your battery is properly inserted, you can put the battery compartment cover back on your mouse.

BATTERY WARNING:

- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.
- Batteries are not to be inserted with the wrong polarity.
- Exhausted batteries are to be removed.
- The supply terminals are not to be short-circuited.

Please recycle or dispose of the battery properly. Contact local recycling facilities and/or the manufacturer of your battery for further information.

2.4 GHz

MOUSE SETUP

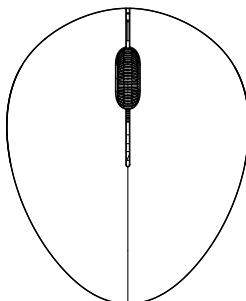

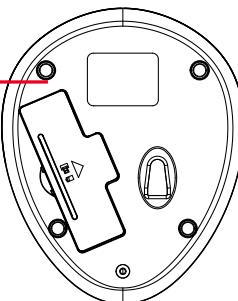

In order to connect your mouse to your computer, follow the steps below:

- Remove the USB receiver from the storage slot inside the battery compartment on the bottom of your mouse.
- Insert the USB receiver into one of your computer's USB ports.
- Make sure that your computer is powered on.

USB

Open for battery compartment and USB receiver

NOTES

-The mouse will stop working once you pull the receiver out of the USB port or the computer is turned off.

-You can store your mouse's USB Receiver inside your mouse making it even extra portable and easy to store when not in use.

IMPORTANT SAFETY PRECAUTIONS

When using your mouse, basic safety precautions should always be followed, including the following:

- READ ALL INSTRUCTIONS BEFORE USING YOUR MOUSE.
- Never expose your mouse to high temperatures, extreme cold, high humidity or any moisture or water.
- In order to avoid the risk of electric shock, never attempt to open your mouse or repair it without the assistance of certified professionals.
- Your mouse is not to be used by children or the infirm without suitable adult supervision.
- Do not use your mouse at temperatures under 32° F (0° C) or over 104° F (40° C).
- Do not drop your mouse, throw it, or subject it to strong impacts or physical trauma.
- If you detect any abnormalities when using your mouse, contact the manufacturer for support.
- Keep this manual and all relevant information for future reference.
- Clean your mouse using a soft cloth or paper towel. Do not use harsh chemicals when cleaning your mouse, and never submerge your mouse in water.
- Please recycle or dispose of your mouse properly based on the laws and rules of your municipality. Contact local recycling facilities and/or the manufacturer of your mouse for further information.

Risk of Fire and Burns.

Do Not Open, Crush, Heat Above 104° F (40° C) or Incinerate.
Always Follow All Manufacturer's Instructions When Using.

TROUBLESHOOTING

If your mouse is not working properly, please try the following:

- Make sure that both your mouse and your computer are powered on.
- Make sure the distance between the two devices is less than 10m.
- Make sure that your computer has suitable drivers for recognizing a USB mouse.
- Make sure the batteries in your mouse have been inserted correctly.

Mouse Receiver FCC ID: 2AAPK-JUSWMP022R

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or in conjunction with any other antenna or transmitter.
