- Put your finger on the folder icon,and there will come out a dialogue box.Input what you want to rename.- Click the folder icon again to finish renaming.

What is the Cloud Account?

- The cloud account is created by parents to do the cloud control of the tablets. One cloud account can be used to bind and control several devices with different device names.
How to create a Cloud Account?

There're two ways to create a cloud account.
- In the Setup Guide

- In the computer:by visiting the website: http://www.young-cloud.cn/Control/

You can do the registration and sign-up in your PC or other mobile device.By logging in,you can do the remote cloud control of the tablet,whose function includes the log record analysis of the tablet usage,resetting of the kids account information,and remote control of tablet's booting and shut-down.

How to connect the tablet to PC by Cloud Control?

- Go to the Control Center of the tablet.
- Under the parent account,click and turn on the "Cloud service ".Input the cloud account that you have created.In this way,you can connect the tablet to our cloud center.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
