Single Modular Approval. Power listed is conducted power. This device is to be used only for mobile and fixed application. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter, except in accordance with FCC multi-transmitter evaluation procedures as documented in this filing. OEM integrators and end-users must be provided with transmitter operation conditions for satisfying RF exposure compliance. Under no conditions may an antenna gain be used that would exceed the ERP and EIRP power limits as specified in Parts 24 and 27. The Grantee is responsible for providing the documentation required for the modular use.
