# FREQUENTLY ASKED QUESTIONS

## Android

**Q: What Android OS version is on my Device?**

A: 4.2

## Basic Device Functionary

**Q: Do I have to charge the battery before use?**

A: You should charge the battery for at least 6 hours in the off status, You can use the device while it's charging, but this method to charge is not recommended.

## Email

**Q: Can I use any of my personal email addresses to send/receive email?**

A: The device supports POP3 and SMTP accounts. Some free email accounts are not supported on mobile devices. Check with your email provider to see if you account is supported.

## Media Cards

**Q: Which media cards are compatible with my Device?**

A: micro SD cards.

## Music

**Q: What type of music files can I play on my device?**

A: MP2, MP3, WAV, AAC, WMA

**Q: How do I add music files to my device?**

A: Copy the music files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

## Photos

**Q: What type of photo files can I view on my device?**

A: JPG, JPEG, BMP and PNG.

**Q: How do I add photo files to my device?**

A: Copy the photo files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

## Video

**Q: What type of video files can I play on my device?**

A: Video file formats supported: MPEG1/2/4、H263、H264、VC1、Real Video、Motion JPEG.. The largest video format is supported 1080P(1920×1080) resolution.

**Q: How do I add video files to my device?**

A: Copy the video files from your computer onto a SD card or USB storage device, and then use the File Browser application to copy the files into the device.

## Wi-Fi

**Q: Do I need a Wi-Fi adapter to connect to the Internet?**

A: No. The Wi-Fi adapter is built-in to the device.

Inconsistent with the physical specifications, please prevail in kind.

# BATTERY MANAGEMENT

The battery is not fully charged out of the box, so it is recommended that you charge the battery for at least 6 hours before you start to use the device.

The rechargeable battery is designed and manufactured to be used and recharged frequently. As with all batteries, the capacity of the battery reduces each time it is charged/depleted. However, you can still try to prolong the battery's lifetime by following the suggestions below:

● Use your Tablet at least once a week.

● Charge the battery regularly and fully.

● Never leave the battery fully discharged for a long period of time.

● Always keep the device and the battery away from heat.

## Charge battery

Plug the power adapter into an electrical wall outlet, and then connect to the device to fully charge the battery before use (A full charge takes about 6 hours in the off status).

When fully charged, the battery icon displays as .

A fully discharged battery takes approximately 6 hours to fully charge in the off status, but you can use the device while plugged in when desired.

# IMPORTANT SAFETY PRECAUTIONS

Always follow these basic safety precautions when using your Tablet. This reduces the risk of fire, electric shock, and injury.

- Do not expose this product to rain or moisture.
- Keep the device out of direct sunlight and heat sources.
- Protect the power cord. Route power cords so that they are not likely to be walked on or pinched by items placed on or against them. Pay particular attention to the point where the cord attaches to the device.
- Only use the AC adapter included with the device. Using any other power adapter voids your warranty.
- Do not remove the cover. There are no user-serviceable parts inside.

## Cleaning your device

Treat the screen gently. To clean fingerprints or dust from the screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth.

# Appendix : FCC Statement and Caution

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party Responsible for compliance could void the user's authority to operate this equipment. (Example-use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules.Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

## RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

## Caution!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.
