Re: FCC ID: 2AAZL-GTCU-GS-001

To Whom It May Concern:

The following application is submitted on behalf of our client, Globe Tracker, for evaluation of their model GTCU-GS-001 for a Class II Permissive Change under FCC Part 15.247.

The purpose of the Class II Permissive Change is to add a new antenna/host configuration for the 802.11b Wi-Fi module FCC ID: 2AAZL-GTCU-GS-001. The module was tested when integrated within the Globe Tracker Communication Unit model GTCU-001 which includes a 433 MHz transceiver and a GSM module (FCC ID: RI7GE865). The radios cannot transmit at the same time.

The FCC ID: 2AAZL-GTCU-GS-001 was evaluated for radiated emissions for the new antenna/host configuration and was found to be compliant with the aforementioned test requirements.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
