

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (End User Terminal) housing. The housing is black and triangular. The internal board is green and contains two yellow circular components, likely batteries, and a black rectangular component. A ruler is placed next to the housing for scale, showing measurements in millimeters.
Solder Board-Component View 1	 A close-up photograph of the solder board component. The board is green and triangular, with two yellow circular components and a black rectangular component. A ruler is placed next to the board for scale, showing measurements in millimeters.

Solder Board-Component View 2	 A photograph of a green, irregularly shaped printed circuit board (PCB) component. The board is populated with various electronic components, including a central black integrated circuit (IC), several smaller surface-mount components, and a yellow component on the left. The board is placed on a blue textured surface. A black ruler with white markings is positioned to the left and bottom of the board, showing measurements in millimeters (mm).
Antenna View	 A photograph of the same green PCB component, viewed from the side. A red rectangular box highlights a specific area on the board, and a red line points from a label "BT Antenna" to this area. The board is placed on a blue textured surface.
