Equipment Autorisation Division  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

FCC ID: 2AAZNID-2  
Product Name: Instadose 2

**Request for Confidentiality**

Pursuant to Sections 0.457 and 0.459 of the Federal Communications Commission regulations, we hereby request that the following documents be withheld from public inspection on the grounds that they constitute "Proprietary Information" of Mirion and contain trade secrets, commercial, and/or confidential information of Mirion which can be protected from public inspection in conformance with the provisions of the aforementioned regulations:

- Block diagram
- Schematics
- Product Description
- Parts Lists
- Internal photographs

These materials are being disclosed to the FCC in confidence and only in connection with an application to certify the Instadose product according to the FCC regulations and requirements. Their disclosure outside Mirion is limited to regulatory bodies and others with a legitimate need for the information and is always subject to suitable measures to protect them from unauthorized use or disclosure. They are not available from public sources.

In addition, public disclosure of the Proprietary Information is likely to cause substantial harm to the competitive position of Mirion because the Proprietary Information consists of Mirion's technical documents. The availability of such Proprietary Information to competitors would enable them to easily modify their products to compete unfairly with Mirion, to take marketing or other actions to improve their product's position or impair the position of Mirion's products. Further, it would enable them to spare important costs developing similar data and analysis in support of their processes, methods or apparatus.

The Proprietary Information has been in the past, and will continue to be, held in confidence by Mirion. It is the type of information customarily held in confidence by any manufacturing company.

Accordingly, Mirion requests that the Proprietary Information be withheld from any public inspection, and to be notified of any such request for disclosure.
